TABLE OF CONTENTS

FABRICATION COMPONENTS

FUSE Wire	6-7
Aluminum Mandrel Bends / Straight Tubing / Transitions / Joiners / Cast Elbows	8-10
Air to Air Intercoolers	11
VANJEN Clamping System	12-13
Silicone Connectors / Heater Hose / Vacuum Hose	14-18, 20
Stainless Steel T-Bolt Clamps / Worm Gear Clamps	19
Mass Air Flow Sensor Adapters	21
Bellmouth Velocity Stacks	22
Performance Air Filters	22-23
Vacuum Manifold / Vacuum Fittings	24-25
Manual Boost Controller	26
BOV Flanges	27
Stainless Steel Schedule 10 Pipes (Elbows, T-Pipes, Straight Lengths)	28
Turbo Manifold Merge Collectors	29
Turbo Flanges and Wastegate Flanges	30-37
Oil Restrictor Fittings / Oil Feed Kits / Oil Drain Kits	38
Oil Feed and Oil Return Flanges	38-39
Braided Flex Hoses (Stainless Steel and Nylon) / Push-On Style Flex Hoses	40-41
Aluminum Hose End Fittings	42-43
Push-On Flex Hoses and Push-On Hose End Fittings	44
Aluminum Adapter Fittings	45-51
Small Diameter Hose Clamps / Fitting and Hose Tools and Accessories	52-53
Male and Female Weld Bungs (Aluminum and Steel)	54
Catch Cans	55
Heat Shields / Accousting Shields / Hose Protection Sleeves	56-58
Windshield Washer Bottle Replacement Kit	59
Exhaust Manifold Head Flanges	60
Stainless Steel Mandrel Bends (Round and Oval) / Straight Tubing / Reducers	61-65
TIG Weld Wire	65
Stainless Steel Merge Collectors / Stainless Steel Double Slip Joints	66-67
Stainless Steel Flex Couplings	68-69
High Flow Catalytic Converters	70-71
V-Band Flange Assemblies (Stainless Steel and Aluminum)	72-73
Stainless Steel Exhaust Flanges and Gaskets (2 Bolt and 3 Bolt)	74
Exhaust Clamps / Exhaust Sensor Fittings and Weld Bungs / Exhaust Accessories	75-78
Stainless Steel Universal Mufflers / Stainless Steel Resonators / Race Mufflers	79-83
Stainless Steel Exhaust Tips	84-85

PERFORMANCE EXHAUST SYSTEMS

Headers and Cat-Back Exhaust Systems	86-87

LARGE VOLUME SUPPLY PROGRAMS

VIBRANT CAN
SUPPLY YOUR
LARGE VOLUME
COMPONENT
REQUIREMENTS
IN THE MOST
COST EFFECTIVE
AND TIMELY
MANNER.

WE'RE MORE THAN A SUPPLIER...VIBRANT POWER IS YOUR STRATEGIC PARTNER IN BUSINESS.

For over 25 years Vibrant Power has supplied key intake and exhaust components to original equipment manufacturers located in over 50 countries. These partnerships are built on the timely, and reliable supply of high quality products. We invite you to inquire about our volume related programs, and learn how you can benefit from a strategic partnership with Vibrant Power Inc.

FUSE wire is an innovative product that allows users to achieve an incredibly strong, “weld-like” bond of Aluminum and its alloys. FUSE wire features a proprietary chemical composition that allows it to react at low temperature and which produces a bond that can withstand 1600psi of pressure and has a tensile strength of 13500psi. Whether you are trying to “fuse” aluminum tubing to a flange, fill a hole or do simple repairs, FUSE wire makes it easy.

FUSE wire works at low working temperatures (380°C or 715°F), which ensures there is little to no deformation of the material you are working with. A variety of heat sources (Propane or Butane Torch recommended) can be used to bring the repair area or base Aluminum to temperature. When the working temperature has been reached, simply apply FUSE to join or repair any Aluminum based material.

HEAT IT

Heat it... The FUSE process begins with Heat! No special welding equipment is needed. Get started with a Propane or Butane Torch and heat your Aluminum based material to 380 deg C or 715 deg F.

FUSE IT

Fuse it... The FUSE wire is easy to work with! Once your Aluminum material reaches temperature, FUSE wire can be easily applied to join or repair any Aluminum Alloy.

USE IT

Use it... The FUSE wire is an ideal repair solution for any Aluminum based product. Ideal for use in Automotive, Industrial or Household situations! FUSE wire can be drilled, milled, turned or tapped!

Construction

Lugging a welder around the job site to do Aluminum repairs is both time consuming and inefficient. A spool of FUSE and a butane torch can handle virtually any job that would otherwise require Aluminum welding and allows your crew much more mobility in getting the job done.

Marine

If you are a boat owner, having some FUSE wire in your toolbox is a must. Boats and personal watercraft feature a lot of Aluminum parts and accessories. Replacing cracked or broken parts or getting them repaired by a professional can get awfully expensive. Instead, you can rely on FUSE wire to make broken parts good as new.

Home & Garden / Repair

Broken mailboxes, cracked shelving or damaged lawn mower casing are all examples of household items that can be easily repaired with FUSE. The ravages of time and exposure to the elements can cause damage to many common tools and structures made of Aluminum. With FUSE, you can extend the life of those items, saving you money and aggravation.

Automotive

Leaking Radiator? Cracked AC line? Broken Body Trim? You could buy new parts and pay someone to replace them for you OR you can just fix it yourself with FUSE. Why incur the cost of new parts when FUSE allows you to solve the problem with a quick, strong and inexpensive weld. Save time and money with FUSE!

Part No. 18960

Our 5 foot coil of FUSE wire is intended for commercial users. If you find yourself using FUSE wire every day on the jobsite or at your shop, it makes sense to step up to our 5 foot coil and take advantage of the reduced cost per inch vs. our 10 inch coil. 5 feet of material "fuses" 20 feet of sheet metal.

Part No. 18910

The 10 inch coil is ideal for anyone from a DIY handyman to a racer going to the track. Think of it as a low cost insurance policy. The last thing any racer wants to do is be forced to pack up their car and head home early from an event because of a simple crack or puncture that could be easily repaired by FUSE wire. Not everyone wants to lug a bulky welder to the track. Just keep a 10 inch length of FUSE wire in your toolbox and a butane torch in the trailer and you are ready for anything. 10 inches of material "fuses" 5 feet of sheet metal.

ALUMINUM TUBING

Fabricate your own custom intercooler and intake assemblies using Vibrant Performance Aluminum Tubing. These mirror polished T6061 Aluminum Elbows and Straight Lengths measure 1.5mm thick and are available in sizes ranging from 1 1/2" to 4" O.D.

They require virtually no surface preparation for professional tig welding (see page 65 for our offering of Aluminum TIG Weld Wire). Also works flawlessly with Vibrant's FUSE wire (see pg 6-7).

180° ALUMINUM ELBOWS

Part No.	Tube O.D.	CLR	Leg Length
2863	1 1/2"	2 1/4"	4"
2864	1 3/4"	2 1/4"	4"
2865	2"	2 1/2"	4"

2875	4"	5"	5 1/2"

30° ALUMINUM ELBOWS

Part No.	Tube O.D.	CLR	Leg Length
2150	1 1/2"	2 1/4"	6 1/2"
2151	1 3/4"	2 1/4"	6 1/2"
2806	2"	2 1/2"	6 1/2"
2807	2 1/4"	3"	6 1/2"
2808	2 1/2"	3 3/4"	6 1/2"
2809	2 3/4"	4 1/4"	6"
2811	3"	4 1/2"	6"
2812	3 1/2"	4 1/2"	5 1/2"
2813	4"	5"	5 1/2"

ALUMINUM STRAIGHT TUBING

T6061 Aluminum Straight Lengths are available in both 18 inch and 5 foot lengths

Please note: Overall length tolerance = +/- 2"

Tube O.D.	18" Long Part No.	5 foot Long Part No.
1 1/2"	2171	12171
1 3/4"	2172	12172
2"	2885	12885
2 1/4"	2888	12888
2 1/2"	2174	12174
2 3/4"	2882	12882
3"	2173	12173
3 1/2"	2892	12892
4"	2877	12877

ALUMINUM TRANSITIONS

Vibrant Performance Aluminum Transitions allow for easy and cost effective reducing or expanding from one tubing size to another that will also look very professional. Ideal for applications where the fabricator prefers not to use silicone couplers. Requires minimal if any surface prep for TIG welding.

Part No.	Size	Overall Length
12061	2" x 2 1/2" Transition	3"
12064	2 1/2" x 2 3/4" Transition	3"
12065	2 1/2" x 3" Transition	3"
12067	3" x 3 1/2" Transition	3"
12069	3 1/2" x 4" Transition	3"

MANUAL BEAD ROLLER

This sturdy and cost effective tool makes it easy to add a professional looking bead to all types of tubing.

Great for Aluminum up to 16 gauge wall thickness (0.065" or 1.65mm). Steel/Stainless Steel should be no thicker than 18 gauge (0.050" or 1.25mm).

Made from high quality steel and aluminum components, this assembly comes complete with everything you need straight out of the box, including a convenient carrying case. No extra tools are required.

Minimum tube diameter to use on this bead roller is 3/4" OD. It produces a bead that is approximately 2mm tall and 6.5mm wide.

Part No. 2990

Makes bead rolling easy!

Produces a bead that is approx. 2mm tall and 6.5mm wide

ALUMINUM JOINERS

Our T6061 Aluminum Joiners can come in handy in so many ways. They are especially useful for creating affordable custom silicone coupling combinations to suit your specific needs. Also commonly used for custom intercooler end tank fabrication or for welding hose inlets/outlets to aluminum radiators.

Part No.	Tube O.D.	Overall Length
12049	1 1/2"	3"
12048	1 3/4"	3"
12050	2"	3"
12051	2 1/4"	3"
12052	2 1/2"	3"
12053	2 3/4"	3"
12054	3"	3"
12055	3 1/2"	3"
12056	4"	3"

Create your own custom Silicone Couplers!

TIGHT RADIUS 90° CAST ALUMINUM ELBOWS

Part No.	Elbow O.D.
2872	2"
2873	2 1/2"
2874	3"

AIR TO AIR INTERCOOLERS

Vibrant Air to Air Intercoolers feature heavy duty Bar and Plate construction that delivers maximum cooling efficiency while minimizing pressure drop. Their strength and durability make them capable of handling even the most extreme race applications. Traditional Tube and Fin intercoolers can have limited cooling capacity. Our Bar & Plate Intercoolers deliver significantly cooler, denser air to your engine, reducing the likelihood of detonation and maximizing your turbo's potential.

Vibrant Intercoolers are available with and without tig welded cast aluminum end tanks. All intercoolers with end tanks are pressure tested to ensure a leak free assembly.

INTERCOOLERS - COMPLETE ASSEMBLY WITH END TANKS

Our complete assemblies include a pair of Stainless Steel "Easy Mount" brackets (with required hardware), which bolt onto the end tanks to make mounting the intercooler easy.

Part No.	HP Rating	Core Thickness	Overall Width A	Core Width B	Height C	Inlet / Outlet D	E	F	G
12800	350 HP	3.25"	26.00"	20.00"	6.50"	2.50"	3.25"	3.25"	1.75"
12810	550 HP	3.25"	30.00"	24.00"	9.25"	2.50"	3.50"	5.75"	1.75"
12815	875 HP	3.50"	33.00"	27.00"	12.00"	3.00"	4.50"	7.50"	1.75"
12816	875 HP	3.50"	33.00"	27.00"	12.00"	2.50"	4.50"	7.50"	1.75"

INTERCOOLERS - CORE ONLY (NO END TANKS)

Vibrant Performance now offers an expanded roster of Air to Air Intercooler Cores. Simply weld on your own custom end tanks and you are ready for the track!

Part No.	Core Width	Core Height	Core Thickness	HP Rating
12841	6.00"	11.80"	3.00"	200 HP
12830	17.75"	6.50"	3.25"	350 HP
12833	17.75"	9.85"	3.50"	515 HP
12834	17.75"	11.80"	4.50"	750 HP
12835	20.00"	11.00"	3.50"	600 HP
12836	22.00"	5.90"	3.50"	400 HP
12831	22.00"	9.25"	3.25"	550 HP
12837	22.00"	9.85"	4.00"	750 HP
12838	22.00"	11.80"	4.50"	900 HP
12839	24.00"	8.00"	3.50"	600 HP
12832	25.00"	11.80"	3.50"	875 HP
12840	27.50"	9.85"	4.50"	900 HP

STAINLESS STEEL "EASY MOUNT" BRACKETS

Part No.	Description
12827	Replacement "Easy Mount" Intercooler Brackets for Intercooler no. 12800
12828	Replacement "Easy Mount" Intercooler Brackets for Intercooler no. 12810
12829	Replacement "Easy Mount" Intercooler Brackets for Intercooler no. 12815

VANJEN CLAMPING SYSTEM

The VanJen Clamping System is the ultimate in flexible, banded clamp connector solutions.

Constructed entirely from T6061 Aluminum, and featuring a unique Quick Release clamping mechanism, the Vibrant VanJen Clamp provides a leak-free, modular connection that is ideal for pressurized air applications. Capable of withstanding up to 110 psi. operating pressure and temperatures up to 400 deg. F, the VanJen Clamping System is ideal for turbo intake plumbing.

The VanJen Clamping System consists of 2 Weld Fittings (with O-Rings), one Union Sleeve, a safety pin and a spring loaded Clamp assembly designed specifically for automotive use. Once the fittings are welded to the tubing, the union sleeve houses the fittings and is held in place by the clamp assembly. Once assembled, the VanJen Clamping System provides a flexible connection that can withstand vibration, movements along its axis, lateral misalignment and angular deflection (up to 12 deg.).

Fittings, Union Sleeves and Clamps can also be purchased as separate components. Please refer to application charts on Page 13.

VANJEN CLAMP - COMPLETE ASSEMBLY

- Each VANJEN Clamp Assembly includes:
- One (1), Quick Release Clamp (with safety pin)
 - One Pair, Aluminum Weld Fittings
 - One (1), Hard Anodized Aluminum Union Sleeve

Part No.	Description
12505	Full Assembly for 2-1/2" O.D. Tubing
12506	Full Assembly for 3" O.D. Tubing
12507	Full Assembly for 3-1/2" O.D. Tubing
12508	Full Assembly for 4" O.D. Tubing

QUICK RELEASE CLAMP

Part No.	Description
12525	Quick Release Clamp for 2-1/2" O.D. Tubing
12526	Quick Release Clamp for 3" O.D. Tubing
12527	Quick Release Clamp for 3-1/2" O.D. Tubing
12528	Quick Release Clamp for 4" O.D. Tubing

HARD ANODIZED ALUMINUM UNION SLEEVE

Part No.	Description
12565	Union Sleeve for 2-1/2" O.D. Tubing
12566	Union Sleeve for 3" O.D. Tubing
12567	Union Sleeve for 3-1/2" O.D. Tubing
12568	Union Sleeve for 4" O.D. Tubing

ALUMINUM WELD FITTINGS

Part No.	Description	Matching O-Ring Part No.
12545	Aluminum Weld Fittings for 2-1/2" O.D. Tubing	12545R
12546	Aluminum Weld Fittings for 3" O.D. Tubing	12546R
12547	Aluminum Weld Fittings for 3-1/2" O.D. Tubing	12547R
12548	Aluminum Weld Fittings for 4" O.D. Tubing	12548R

QUICK RELEASE BOOST BRACE

Vibrant Performance Quick Release Boost Brace eliminates the risk of having your pressurized pipe assemblies pulling apart from your silicone connectors under high boost.

This fully adjustable T6061 Aluminum brace is available with radiused mounts for simplified welding. The quick release feature allows you to easily disconnect the brace from the mounts when necessary.

Boost Brace can be quick released from mounting tabs

Part No.	Description
12640	Quick Release Boost Brace Assembly with Aluminum Mounting Tabs - Polished
12642	Pair of Aluminum mounting tabs

4-PLY REINFORCED SILICONE CONNECTORS

Vibrant Performance Reinforced Silicone Connectors are hand wrapped and feature 4-ply reinforcement, which allows our hoses to be capable of withstanding extreme temperatures and heavy duty pressure conditions without swelling or bursting.

All Vibrant Performance reinforced hoses meet or exceed SAE J20 specifications, are suitable for coolant service and are UV and Ozone resistant. Not suitable for oil or fuel service, although custom hose solutions are available for such applications.

Available in 3", 12" and 36" long straight sections, transition hoses, hump hoses, 45 and 90 deg. elbows as well as transition elbows, and in a wide variety of Hose ID sizing.

Rated for temperatures ranging from -65 deg. F to 350 deg. F.

4-PLY SILICONE STRAIGHT HOSE COUPLINGS - 3 INCH LENGTHS

Hose Size (I.D.)	Overall Length	Wall Thickness +/- 0.02"	Burst Strength	Black Part No.	Blue Part No.	Red Part No.

ARAMID REINFORCED SILICONE CONNECTORS

Due to popular demand, Vibrant Performance offers a selection of Ultra High Performance multi-ply Aramid reinforced silicone connectors for use on high temperature and high pressure applications. Suitable for boost, air and water applications, these hoses are capable of withstanding temperatures ranging from -65 deg. F to 500 deg. F. **Available in Matte Black only.**

4-PLY STRAIGHT CONNECTORS

STAINLESS STEEL T-BOLT CLAMPS

Vibrant Stainless Steel T-Bolt Clamps provide reliable, leak-proof connections for hose and tube assemblies. They offer superior tensile strength and durability compared to worm gear clamps. Complete 300-series Stainless Steel construction (including bolt and lock-nut) offers outstanding corrosion resistance, making them the perfect choice for medium and heavy-duty applications.

- Ideally suited for high boost applications
- Always use T-Bolt Clamps when clamping Vibrant Reinforced Silicone Couplings
- 3/4" (19mm) wide Stainless Steel Band
- Now featuring upgraded, heavier duty Stainless Steel Hardware
- Sold in Pairs

TECH TIP

If you intend to loosen and re-tighten your T-Bolt Clamps regularly, applying anti-seize lubricant to the threads will improve service life.

Part No.	Clamping Range	Application	Quantity
2787	1.25" - 1.60"	for use with 1" I.D. hose couplings	2 clamps/pack
2788	1.49" - 1.84"	for use with 1 1/4" I.D. hose couplings	2 clamps/pack

2798	4.20" - 4.60"	for use with 4" I.D. hose couplings	2 clamps/pack
2797	4.75" - 5.10"	for use with 4 1/2" I.D. hose couplings	2 clamps/pack
2799	5.30" - 5.60"	for use with 5" I.D. hose couplings	2 clamps/pack
2804	6.28" - 6.59"	for use with 6" I.D. hose couplings	2 clamps/pack

STAINLESS STEEL WORM GEAR CLAMPS

Vibrant Stainless Steel Worm Gear Clamps are ideal for a wide variety of light to medium duty fastening applications like air intake kits and vacuum hoses (not recommended for heavy duty, high pressure applications).

These clamps feature 300 series Stainless Steel construction for outstanding corrosion resistance.

Part No.	Clamping Range	Band Width	Quantity
12150	0.25" - 0.63" (6mm - 16mm)	5/16" (8mm)	10 clamps/pack

SILICONE VACUUM HOSES

Vibrant Performance Silicone Vacuum Hoses are designed to handle the extreme conditions found in high performance engines.

- Will not collapse under high vacuum operation
- Resists peeling, cracking and swelling, unlike inferior quality silicone vacuum hoses
- Meets SAE J20R3 specifications
- Available in convenient Pit Packs and Bulk Packs
- Offered in sizes ranging from 1/8" I.D. to 3/4" I.D.

PIT PACKS

Vibrant Silicone Vacuum Hose Pit Packs include:

- 5 feet of 1/8" (3.2mm) hose
- 10 feet of 5/32" (3.75mm) hose
- 4 feet of 3/16" (4.5mm) hose
- 4 feet of 1/4" (6mm) hose
- 2 feet of 3/8" (10mm) hose

* Accepts Vibrant Air Filter part no. 10923, 10930 or 2160C

ALUMINUM BELLMOUTH VELOCITY STACKS

Vibrant Performance high efficiency Bellmouth-style Velocity Stacks are ideal for All Motor and Forced Induction race applications. They allow for less turbulent air to enter your engine, resulting in dramatic airflow improvements and ultimately significant torque and horsepower gains. Also reduces turbo lag. Spun from 1/8" thick T6061 Aluminum Alloy.

Part No.	Inlet O.D.	Bellmouth O.D.	Matching Air Filter

10960	6"	5"	7 1/2"	5 1/4"	Black	For use on Part No. 10950, 10951 and 10952 only
10961	7"	5"	8 1/4"	8 1/2"	Black	For use on Part No. 10953

“THE CLASSIC” PERFORMANCE AIR FILTERS

Vibrant Performance “Classic Filters” feature a 4 ply pleated cotton-gauze element that allows for significantly more airflow than a stock filter while providing excellent filtration of airborne particulate. Each filter is pre-oiled, and is washable and reusable. It is recommend that the filter element is cleaned every 10,000-15,000 miles (more frequent cleaning may be necessary depending on conditions). These filters are covered by a Limited Lifetime Warranty and are made in the USA.

STANDARD CLASSIC FILTERS

Part No.	Inlet I.D.	Filter Cap O.D.	Filter Base O.D.	Overall Height	Filter Cap Color

10926	4 1/2"	5"	5 1/2"	6 1/4"	Black

SHORTY CLASSIC FILTERS FOR TURBO INLETS

These compact filters are perfect for use on engine bays where space is limited. Actual filter Element Height (not including neck) is 3-5/8".

Part No.	Inlet I.D.	Filter Cap O.D.	Filter Base O.D.	Overall Height	Filter Cap Color
10930	3"	5"	5 1/2"	4-1/4"	Black
10931	4"	5"	5 1/2"	4-1/4"	Black
10932	5"	5"	5 1/2"	4-1/4"	Black

TECH TIP

Our Classic Series Air Filters feature an inverted cone end cap that permits more efficient airflow.

“OPEN FUNNEL” PERFORMANCE AIR FILTERS

Vibrant Performance “Open Funnel” Air Filters feature an inverted cap design which increases the filter surface area for improved air flow and excellent filtration of airborne particulate. These filters are covered by a 50,000 mile Limited Warranty.

Please note: Open Funnel filters are not intended for turbo use.

2168	1" (25mm)	2 1/8" (55mm)	2 5/8" (68mm)

ALUMINUM VACUUM MANIFOLD

Vibrant's popular Aluminum Vacuum Manifold allows for consistent vacuum from a single source to be distributed through up to 6 ports to support all your accessories.

We include all necessary mounting hardware for simplified installation.

All ports come with plugs pre-installed.

We recommend using Vibrant Pneumatic Fittings with this Vacuum Manifold (please refer to pg. 25)

Manifold Dimensions:
5 1/2" long x 1 1/2" wide 1" tall

Port Details:
6 ports threaded for 1/8" NPT fittings
Center port threaded for 3/8" NPT fittings

Part No.	Description
2690	Vacuum Manifold - Anodized Silver
2691	Vacuum Manifold - Anodized Black

ALUMINUM VACUUM LINE FITTINGS - SOFT MOUNT

Part No. 12890

Vibrant Performance Soft Mount Vacuum Line fittings are designed to be inserted into a silicone connector and are guaranteed not to leak. Simply punch an 8mm hole into the silicone connector and install the fitting kit (as shown below). Quick and Easy!

Each kit includes a CNC machined aluminum fitting, lock nut, washer and O-Ring seal.

For use with Vibrant Performance 5/32" I.D. vacuum hoses. Please refer to page 20 for Silicone vacuum lines and page 25 for polyethylene vacuum lines.

ALUMINUM VACUUM LINE FITTINGS - HARD MOUNT

Vibrant Performance makes it easy to add vacuum line fittings to your tubing.

Simply select the proper fitting for your application, drill an appropriately sized hole into your tubing and pop in the grommet and fitting. Requires no welding.

Use with Vibrant Performance Vacuum Hose. Please refer to page 20 for Silicone vacuum lines and page 25 for polyethylene vacuum lines.

Part No.	Description
2895	10mm O.D. Fitting with rubber grommet
2896	16mm O.D. Fitting with rubber grommet
2897	19mm O.D. Fitting with rubber grommet

PNEUMATIC (ONE - TOUCH) VACUUM FITTINGS

Vibrant Performance "One Touch" fittings allow for simple and secure tubing connections. These fittings are suitable for both ambient and pressurized air, up to 150 psi and are virtually impossible to pull apart when inserted properly in the fitting. Your vacuum tubing quickly disconnects from the fitting by simply pushing down on the release collar. No need for hose clamps or zip ties to secure lines! All threads are PTFE coated.

2652	1/4" (6mm)	10 ft.	Black
2651	3/8" (9.5mm)	10 ft.	Black

HIGH TEMP VACUUM LINE KITS

High temperature Vacuum Line Kits are ideal for use on forced induction and naturally aspirated applications

- All-metal Nickel-plated Pneumatic Brass Fittings
- PTFE hose designed to withstand extreme temperatures
- PTFE specs: -292°F to 500°F @ 100psi, withstands cryogenic to 700°F+

Part No.	Description
17400	All Purpose Kit (includes 10ft of 1/4" O.D. Polyurethane Hose, 10ft of 1/4" O.D. High Temp PTFE Hose and Pneumatic Fittings)
17402	High Temperature Vacuum Line Kit (includes 10ft of 1/4" O.D. White High Temp PTFE Hose and High Temp Pneumatic Fittings)
17431W	5 foot length of 1/4" O.D. High Temp PTFE Hose - White
17430W	10 foot length of 1/4" O.D. High Temp PTFE Hose - White

Part No. 17400

MANUAL BOOST CONTROLLER

"Turning Up The Boost" has proven to be one of the easiest and most cost effective ways to squeeze more horsepower and torque from your turbocharged vehicle.

Vibrant Performance has developed a Manual Boost Controller that is lightweight, very compact and features a unique integrated dial that allows you to precisely set boost. It virtually eliminates the risk of "overboosting" which can occur with many other Manual Controllers.

These boost controllers are CNC machined from T6061 billet aluminum and premium grade brass. We include an adjustment key (which you can carry around on your keychain) to make it easy to turn the dial. We also include 18 inches of silicone vacuum hose, zip ties and installation instructions.

Part No.	Description
16900	Manual Boost Controller (Black Anodized)

Installation Diagram

IMPORTANT TECHNICAL INFORMATION

The Vibrant Performance Manual Boost Controller is a "BLEED-OFF" style MBC. As such, it disperses excess pressure as needed to output your desired boost level, up to a maximum of 30% more than your factory wastegate spring setting.

Upgrade boost accuracy and prevent possible leaks with Vibrant pneumatic one-touch vacuum fittings (see page 25).

Keep your boost reference line reasonably short if using the supplied silicone hose to connect between reference points.

High heat and high boost environments can cause line expansion and false feedback, especially if reference lines are too long.

Keep supplied silicone hose away from heat sources. If it is impossible to locate these lines a safe distance from high heat sources, be sure to protect those hoses with Vibrant new "Heat Protect" Flexible Sleeving (page 58).

CUT-AWAY VIEW

Our Manual Boost Controller includes a unique keyway for secure, end user only adjustment.

This feature eliminates a common issue that exists with most MBC's that utilize those bulky knobs that allow anyone to adjust your setting without your knowledge.

Fine threaded valve for very accurate boost adjustment

360 deg O-Ring Seal

Anodized finish to ensure little to no corrosion over time

ALUMINUM BLOCK OFF PLATE FOR TD04 OEM TURBO

This T6061 Aluminum CNC Machined Block Off Plate will fit the following applications:

- Mitsubishi MHI TD04HL1-12T /14T
- Buick Regal 2.0t
- Dodge Caliber - all years
- Dodge Neon SRT-4 - all years
- Chrysler PT Cruiser Turbo
- Hyundai Genesis 2.0T
- Renault Megane 225/230
- Renault Megane RS 250
- Volvo 850 T5
- Volvo S40/V40 Turbo 1997-2004
- Volvo S70/V70 Turbo

Part # 16120

WELD-ON FLANGE ASSEMBLIES FOR BLOW OFF VALVES

Vibrant Performance makes it easy to weld Blow Off Valve Mating Flanges to your induction plumbing.

Each Blow Off Valve Flange Kit comes complete with a radiused weld fitting that is also threaded so that you can simply screw on the mating flange, which is very convenient if, down the road, you decide to switch BOVs. Simply thread off the old flange and thread on the appropriate flange to match your new BOV. These assemblies are also ideal for kit builders who offer their customers the option of choosing the BOV they want to use.

The Weld Fittings are available in your choice of T6061 Aluminum or Mild Steel construction. The Thread-On Fittings are made from T6061 Billet Aluminum. Each kit also includes an O-Ring for a leak free seal.

WELD ON FLANGE KIT FOR HKS BOV

- Part No. 1451 (Aluminum Weld Fitting / Aluminum Flange)
- Part No. 1452 (Mild Steel Weld Fitting / Aluminum Flange)
- Part No. 10127H (Aluminum Thread-On Replacement Flange)
- Part No. 10127O (Replacement O-Ring)

WELD ON FLANGE KIT FOR GREDDY BOV

- Part No. 1453 (Aluminum Weld Fitting / Aluminum Flange)
- Part No. 1454 (Mild Steel Weld Fitting / Aluminum Flange)
- Part No. 10127G (Aluminum Thread-On Replacement Flange)
- Part No. 10127O (Replacement O-Ring)

WELD ON FLANGE KIT FOR TIAL STYLE BOV

- Part No. 1477 (Aluminum Weld Fitting / Aluminum Flange)
- Part No. 1478 (Mild Steel Weld Fitting / Aluminum Flange)
- Part No. 10134 (Aluminum Thread-On Replacement Flange)
- Part No. 10127O (Replacement O-Ring)

WELD ON FLANGE KIT FOR SYNAPSE SYNCHRONIC BOV/DV

- Part No. 1468 (Aluminum Weld Fitting / Aluminum Flange)
- Part No. 1469 (Mild Steel Weld Fitting / Aluminum Flange)
- Part No. 10135 (Aluminum Thread-On Replacement Flange)
- Part No. 10127O (Replacement O-Ring)

T304 STAINLESS STEEL SCHEDULE 10 PIPES

Vibrant Performance T304 Stainless Steel Schedule 10 Pipes are ideal for use in the construction of turbo exhaust manifolds and downpipe fabrication. The chamfered ends allow for easy butt welding.

We offer Long and Tight radius 90 degree elbows, 45 degree long radius elbows, T-pipes and 12" long straight sections.

PLEASE NOTE:

Pipes are normally identified by a Nominal Pipe Size (NPS) rather than Outside Diameter. Please refer to the "Actual I.D." and "Actual O.D." columns on the application list below to ensure you choose the correct pipes for your project.

45° Elbow

Part No.	Nominal Pipe Size	Actual O.D.	Actual I.D.	C
2330	1 1/4"	42mm (1.65")	37mm (1.45")	1"
2331	1 1/2"	48mm (1.89")	42mm (1.65")	1.13"
2335	2 1/2"	76mm (3")	70mm (2.75")	1.75"
2336	3"	89mm (3.5")	83mm (3.25")	2"

90° Tight radius elbow

Part No.	Nominal Pipe Size	Actual O.D.	Actual I.D.	A
2340	1 1/4"	42mm (1.65")	37mm (1.45")	1.25"
2341	1 1/2"	48mm (1.89")	42mm (1.65")	1.5"
2345	2 1/2"	76mm (3")	70mm (2.75")	2.5"
2346	3"	89mm (3.5")	83mm (3.25")	3"

90° Long radius elbow

Part No.	Nominal Pipe Size	Actual O.D.	Actual I.D.	B
2360	1 1/4"	42mm (1.65")	37mm (1.45")	1.88"
2361	1 1/2"	48mm (1.89")	42mm (1.65")	2.25"

T-Pipe

Part No.	Nominal Pipe Size	Actual O.D.	Actual I.D.	D
2370	1 1/4"	42mm (1.65")	37mm (1.45")	1.88"
2371	1 1/2"	48mm (1.89")	42mm (1.65")	2.25"

12" Straight Pipe

Part No.	Nominal Pipe Size	Actual O.D.	Actual I.D.	E
2350	1 1/4"	42mm (1.65")	37mm (1.45")	12"
2351	1 1/2"	48mm (1.89")	42mm (1.65")	12"

TECH TIP

Vibrant Performance now offers a large selection of Exhaust Manifold Flanges (Refer to page 60) with port dimensions that are optimized for use with Schedule 10 pipes, making it significantly easier to build your own turbo manifold.

TURBO MANIFOLD MERGE COLLECTORS

In many cases, the most time consuming part of fabricating a turbo manifold is building the merge collector. Vibrant Performance makes manifold fabrication easier and more cost effective with our large selection of Turbo Manifold Merge Collectors.

These collectors are made exclusively using T304 Stainless Steel Schedule 10 pipes for superior strength and durability and easy butt welding of primaries. Each pipe is precision 3D laser cut to create a proper merge for maximizing exhaust gas flow efficiency and minimizing turbulence. We tack weld each assembly so a fabricator can easily make adjustments if necessary.

4 INTO 1 COLLECTOR - SHORT

Part No.	Description	Pipe O.D.	Collector Height	Collector Outlet Size
2450	Designed to fit T25/T28 Inlet Flanges	1-5/8" 42mm	3" 76mm	2-1/4" x 1-3/4" 58mm x 45mm
2451	Designed to fit T3 and T3/T4 Inlet Flanges	1-7/8" 48mm	3" 76mm	2-7/8" x 1-7/8" 72mm x 48mm

4 INTO 1 COLLECTOR - TALL

Part No.	Description	Pipe O.D.	Collector Height	Collector Outlet Size
2455	Designed to fit T25/T28 Inlet Flanges	1 7/8" 48mm	4-1/2" 115 mm	2-1/4" x 1-3/4" 58mm x 45mm
2454	Designed to fit T3 and T3/T4 Inlet Flanges	1 7/8" 48mm	4-1/2" 115 mm	2-7/8" x 1-7/8" 72mm x 48mm
2453	Designed to fit T4 Inlet Flanges	1 7/8" 48mm	4-3/4" 120 mm	3-1/16" x 2-1/2" 78mm x 64mm
2457	Designed to fit GT28/30/35 Tial Turbine Inlet Flanges	1 7/8" 48mm	4-1/2" 115 mm	2-1/8" dia. 54mm
2465	Designed to fit T3 Divided Inlet Flanges	1 7/8" 48mm	4-1/2" 115 mm	2-15/16" x 2-1/4" 74mm x 58mm
2466	Designed to fit T4 Divided Inlet Flanges	1 7/8" 48mm	4-1/2" 115 mm	2-15/16" x 2-1/4" 74mm x 58mm

6 INTO 1 COLLECTOR

Part No.	Description	Pipe O.D.	Collector Height	Collector Outlet Size
2456	Designed to fit T4 Inlet Flanges	1-7/8" 48mm	4-1/4" 110mm	2-15/16" x 2-1/4" 74mm x 58mm

Outlet View

Each pipe is precision cut and assembled to produce a proper merge for maximum exhaust gas flow efficiency.

TURBO FLANGES

Vibrant Performance offers a large assortment of Turbo Inlet and Discharge Flanges, Compressor Outlet Flanges, External Wastegate Flanges, Oil Feed and Oil Drain Flanges. Multi-layer metal gaskets are available for some of our flanges.

TURBO INLET FLANGES

T25 / T28 / GT25 Inlet Flange

- Also fits T2, GT28, GT25/40R
- 1/2" thick
- Tapped holes (M8 x 1.25)

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1430	14300	1430G

Note: All dimensions listed in millimeters

T3 and T3/T4 Inlet Flange

- Also fits KKK K26/K27/K28 Turbos
- 1/2" thick
- Tapped holes (M10 x 1.5)

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1431	14310	1431G

GT30R/GT35R/GT40R Inlet Flange

- Designed to fit all Garrett T3 housings
- 1/2" thick
- Tapped holes (M10 x 1.5)

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1400	14000	1400G

T03 Inlet Flange - Divided

- 1/2" thick
- Tapped holes (M10 x 1.5)

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1445	14450	1445G

T04 Inlet Flange

- 1/2" thick
- Drilled holes

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1441	14410	1441G

T04 Inlet Flange - Divided

- 1/2" thick
- Tapped holes (M10 x 1.5)

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1442	14420	1442G

T06 Inlet Flange

- 1/2" thick
- Tapped holes (M10 x 1.5)

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1417	14170	1417G

T06 Inlet Flange - Divided

- 1/2" thick
- Tapped holes (M10 x 1.5)

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1443	14430	1443G

Tial GT28/GT30/GT35 Turbine Housing Inlet Flange

- V-Band Style Flange

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1416	N/A	1416C

Precision Turbo 2" V-Band Inlet Flange

- Fits many Precision CEA 5-series and 6-series turbochargers equipped with V-Band inlet on turbine housing.

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1418	N/A	1416C

Garrett GT30 and GT35 Turbine Housing Inlet Flange - Divided / Twin Scroll

- V-Band Style Flange

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1391	N/A	1416C

Garrett GT30 and GT35 Turbine Housing Inlet Flange

- V-Band Style Flange

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1390	N/A	1416C

Mitsubishi EVO 7.8.9 and X Inlet Flange

- 1/2" thick
- Drilled holes

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
N/A	14020	N/A

EXTERNAL WASTEGATE FLANGES

Note: All dimensions listed in millimeters

Tial MV-S Wastegate Outlet Flange

- Also fits Turbosmart Ultragate 40
- V-Band Style

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1426	N/A	N/A

Tial MV-S Wastegate Inlet Flange

- Also fits Turbosmart Ultragate 40
- V-Band Style.

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1424	N/A	N/A

Tial, Deltagate, Evolution and Turbosmart 35-38mm External Wastegate Flange

- 3/8" thick to prevent warping due to high heat.
- Available with Tapped Holes for Wastegate Inlet and Drilled holes for Dump Tube applications.

Flange with Drilled Holes

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1436	14360	1436G

Flange with Tapped Holes

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1437	14370	1436G

35-38mm External Wastegate Block Off Flange

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
N/A	14290	1436G

38mm to 44mm Wastegate Adapter Flange

- This adapter makes it easy to upgrade from a Tial 2 bolt 35-38mm WG to a Tial 44mm WG without cutting off the existing 2-bolt flange.
- Compatible with V-Band Clamp supplied with Tial 44mm WG

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1427	N/A	1436G

Tial V44 and MV-R Wastegate Outlet Flange

- V-Band Style

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1410A	N/A	N/A

Tial V44 and MV-R Wastegate Inlet Flange

- V-Band Style

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1411A	N/A	N/A

Tial 41mm Wastegate Outlet Flange

- This flange can also be used with Tial 40mm Wastegates

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1412	N/A	N/A

Tial 41mm Wastegate Inlet Flange

- Tapped Holes (12-24NC)

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1413	N/A	N/A

Wastegate Flange Kit for 40mm Synapse Synchronic Wastegate

- Includes both inlet and outlet flanges, 4 S.S. studs and 4 nuts

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
17001	N/A	N/A

STAINLESS STEEL FLEXIBLE INTERLOCK HOSE (FOR DUMP TUBE USE)

Stainless Steel Interlock Hose provides extra flexibility when fabricating a Wastegate Dump Tube in tight areas.

Part No.	Description
84027	1-1/2" I.D. (38mm) x 20" long S.S. Interlock Hose

TURBO DISCHARGE (DOWNPIPE) FLANGES

Note: All dimensions listed in millimeters

GT series / T3 Discharge Flange, 4 Bolt (3" Inlet I.D.)

- Use with new generation GT housings with 3" ID outlet
- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1438	14380	1438G

GT series / T3 Discharge Flange, 4 Bolt (2.5" Inlet I.D.)

- Use with smaller T3 and GT housings with 2.5" ID outlet
- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1439	14390	1439G

T3 Discharge Flange, 5 Bolt (for External Wastegate)

- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1433	14330	N/A

Generation 2 T3 Discharge Flange, 5 Bolt with Divorced Ports Option

- A 7/8" I.D. hole is partially machined to allow for optional divorced ports.
- Designed to work with our transition adapter flange (Part #1447) to simplify fabrication of custom 3" O.D. Downpipes.
- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
N/A	14460	N/A

Transition Adapter Flange for Generation 2 T3 Discharge Flange

- This flange makes it easier to fabricate custom 3" Downpipes for T3 Turbos with 5-bolt discharge.
- Flange outlet is designed for easy welding of either 3" O.D. Tubing or 3" O.D. Schedule 10 Elbow.
- Features unique offset to allow flange to be rotated for optimum clearance of potential obstructions.

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
N/A	14470	N/A

Discharge Flange for Tial GT28, GT30 and GT35 Turbine housings

- Also fits most Garrett medium frame turbine housings with V-band outlet
- V-Band style

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1415	N/A	1415C

GT25R / GT28R Discharge Flange, 5 Bolt

- Features machined lip for easy welding of oval tubing
- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1448	14480	N/A

Oval to Round Transition Adapter for GT25 / GT28 Discharge Flange

- Quickly Transitions from 90mm x 55mm Oval to 76mm (3") Round
- Use with Vibrant Part #1448 or #14480

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1448A	N/A	N/A

GT25R / GT28R Discharge Flange, 5 Bolt with Divorced Ports

- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
1449	14490	N/A

Borg Warner EFR Discharge Flange

- Fits all BW T25, T3 and T4 based turbine housings
- V-Band style

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
14901	N/A	N/A

TURBO DISCHARGE FLANGES (CONTINUED)

Precision Turbo 3" V-Band Discharge Flange

- Fits many Precision CEA 5-series and 6-series turbochargers equipped with V-Band outlet on turbine housing.

T304SS Part No.	Mild Steel Part No.	Matching V-Band Clamp Part No.
1419	N/A	1415C

Note: All dimensions listed in millimeters

T3 Discharge Flange, 3 Bolt

- For use on Internally Wastegated T3 Turbos
- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
N/A	14340	N/A

T04 Oncenter Discharge Flange, 4 Bolt

- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
N/A	14350	N/A

VW 1.8T Discharge Flange

- Bolts to K03/K04 OE Turbo on FWD VW Golf / Jetta / Beetle 1.8T
- 1/2" Thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
N/A	14440	1444G

GT32 Discharge Flange, 6 Bolt

- Suitable for use on internally and externally wastegated versions of GT32 Turbo.
- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
N/A	14200	1420G

Mitsubishi EVO 7,8,9 and X Discharge Flange

- 1/2" thick

T304SS Part No.	Mild Steel Part No.	Matching Gasket Part No.
N/A	13960	N/A

TURBO COMPRESSOR FLANGES

GT42 Compressor Outlet Flange

T304SS Part No.	T6061 Aluminum Part No.	Matching V-Band Clamp Part No.
14943	14942	14942C

Note: All dimensions listed in millimeters

Borg Warner EFR Compressor Outlet Flange

T304SS Part No.	T6061 Aluminum Part No.	Matching V-Band Clamp Part No.
14902	14900	N/A

Nissan SR20 OE Turbo Compressor Inlet Flange

- Fits Many OEM Nissan turbos, including SR20, RB25 and RB26.
- Also fits Garrett GT2554R, GT2560R, GT2854R, GT2859R and GT2860R.

T304SS Part No.	T6061 Aluminum Part No.	Matching Gasket Part No.
14905	14904	N/A

Nissan SR20 OE Turbo Compressor Outlet Flange

- Fits OEM SR20 turbos and Garrett GT2554R, GT2560R, GT2854R.

T304SS Part No.	T6061 Aluminum Part No.	Matching Gasket Part No.
N/A	14906	N/A

Nissan RB25/RB26 OE Turbo Compressor Outlet Flange

- Also fits Garrett GT2859R and GT2860R.

T304SS Part No.	T6061 Aluminum Part No.	Matching Gasket Part No.
14909	14908	N/A

OIL RESTRICTOR FITTING KITS

Vibrant Performance Oil Restrictor Fitting Kits allow you to effectively limit oil flow to your turbo, minimizing the potential for damaging the oil seals in your turbo.

Our unique Restrictor Fittings come with 2 Threaded Brass Jets of differing sizes to allow you to customize oil flow control. An Allen Key and Loctite are also included.

Part No.	Application
10287	-4 AN x 7/16-24 Oil Restrictor Fitting Kit for Garrett BB Turbos
10288	-3 AN x 1/8" NPT Oil Restrictor Fitting Kit
10289	-4 AN x 1/8" NPT Oil Restrictor Fitting Kit

ALUMINUM WATER JACKET ADAPTER FITTINGS

Part No.	Application	Size
10229	For use on Garrett GT28, GT30 and GT35	-6 AN x M14 x 1.5
10298	For use on Garrett GT40, GT42 and GT45	-6 AN x M18 x 1.5

UNIVERSAL OIL FEED KITS

All Vibrant Performance Oil Feed Kits include a PTFE lined Stainless Steel Flexible Hose and high quality AN Fittings.

Part No.	Description
10270	Oil Feed Kit - 2 ft. hose w/ -3 AN Female Fittings
10271	Oil Feed Kit - 3 ft. hose w/ -3 AN Female Fittings
10272	Oil Feed Kit - 4 ft. hose w/ -3 AN Female Fittings
10275	Oil Feed Kit - 2 ft. hose w/ -4 AN Female Fittings
10276	Oil Feed Kit - 3 ft. hose w/ -4 AN Female Fittings
10277	Oil Feed Kit - 4 ft. hose w/ -4 AN Female Fittings

ALUMINUM OIL FEED FLANGES

Oil Feed Flange (T3, T3/T4 and T04)

- Also fits Garrett GT40, GT42, GT45 and GT47 turbos.
- Tapped - 1/8" NPT.
- Includes M8 x 1.25 Bolts.

Part No. 2899

Note: dimensions listed in inches

UNIVERSAL OIL DRAIN / RETURN KITS

Vibrant Performance Universal Oil Drain Kits include a -10AN Stainless Steel Flexible Hose, -10 AN Aluminum Fittings, -10AN Oil Pan Weld Bungs (Steel and Aluminum Bungs are included) and an Aluminum Oil Drain Flange.

Part No.	Description
10280	Oil Drain Kit with 12" long Flex Hose and Oil Drain Flange for T3/T4 Turbos
10281	Oil Drain Kit with 12" long Flex Hose and Oil Drain Flange for GT Series Turbos
10282	Oil Drain Kit for Top Mount setups with 20" long Flex Hose and Oil Drain Flange for T3/T4 Turbos
10283	Oil Drain Kit for Top Mount setups with 20" long Flex Hose and Oil Drain Flange for GT Series Turbos

ALUMINUM OIL DRAIN FLANGES

All Vibrant Performance Oil Drain Flanges feature T6061 Aluminum and include a pair of M8 x 1.25 Bolts for easy installation.

Oil Drain Flange (T3, T3/T4 and T04)

- Tapped - 1/2" NPT
- Part No. 2898**

Oil Drain Flange (GT series BB Turbochargers)

- Use with GT25R, GT28R, GT30R and GT35R Ball Bearing Turbos
 - Tapped - 1/2" NPT
- Part No. 2889**

Oil Drain Flange (GT series Turbochargers)

- Use with GT32, GT37, GT40, GT42, GT45R and GT55R Turbos
 - Tapped - 1/2" NPT
- Part No. 2853**

Oil Drain Flange with integrated -10AN Fitting

- Fits GT15-GT35 series BB Turbos
- Part No. 2893**

Oil Drain Flange with integrated -10AN Fitting

- Fits T3, T3/T4, T04 and GT40-GT55 turbos
- Part No. 2849**

Oil Drain Flange with integrated 5/8" Male Neck

- Fits GT15-GT35 series BB Turbo
- Part No. 2894**

Oil Drain Flange with integrated 5/8" Male Neck

- Fits T3, T3/T4, T04 and GT40-GT55 turbos
- Part No. 2850**

BRAIDED FLEXIBLE RACE HOSES

Vibrant Performance offers a range of Braided Synthetic Rubber Hose manufactured to withstand the demands of the motorsports industry. These hoses are available in your choice of a 300 series Stainless Steel Braided Cover for ultimate protection from abrasion and corrosion or a Black Braided Nylon Cover that is lightweight and durable.

Vibrant Performance Braided Flex Hoses are suitable for use with Oil, Water, Fuel, Coolant and Vacuum and are capable of handling operating temperatures ranging from -40 deg F to 300 deg. F and elevated Operating Pressures.

STAINLESS STEEL BRAIDED FLEX HOSES

TECH TIP

Vibrant Performance Heat Protect Flexible Sleeving protects your Race Hoses from constant temperatures up to 500° deg F.

These sleeves are easy to install, will not melt, delaminate or become brittle under normal operating conditions and provides a professional solution to your thermal protection needs. See page 58 for more information.

INNER SUPPORT SPRINGS

Our new Inner Support Spring offering provides your braided flex hoses with extra support to avoid collapse under extreme vacuum or if you are attempting very tight bends.

Part No.	Description	Spring Length
17306	Support Spring for -6AN Flex Hose	4 feet
17308	Support Spring for -8AN Flex Hose	4 feet
17310	Support Spring for -10AN Flex Hose	4 feet
17312	Support Spring for -12AN Flex Hose	4 feet
17316	Support Spring for -16AN Flex Hose	4 feet
17320	Support Spring for -20AN Flex Hose	4 feet

Note: Some lubrication may be needed for ease of installation

NYLON BRAIDED FLEX HOSES

Vibrant Performance Nylon Braided Flex Hoses are now available in your choice of All-Black, Black/Blue or Black/Red Braid.

Available in 2 foot, 5 foot, 10 foot and 20 foot lengths.

ALUMINUM HOSE END FITTINGS

Vibrant Performance Aluminum Swivel Style Hose End Fittings deliver the type of quality, reliability, smooth flow and ease of assembly that motorsport professionals demand. Made from T6061 Aluminum Alloy, these lightweight hose end fittings are suitable for use on a wide variety of applications. Available in Anodized Black finish only. Suitable for use with all Vibrant Braided Flex Hoses (Please refer to pages 40 & 41).

TECH TIP:

Vibrant Hose End Fittings and Adapters are now suitable for E85 service, as are all Vibrant Braided Flex Hoses.

FLEX HOSE FOR PUSH-ON STYLE FITTINGS

For use with Vibrant Performance Push-On Style Hose End Fittings. Available only in black. These rubber hoses are suitable for use with Oil, Water, Coolant and Methanol and are capable of handling operating temperatures ranging from -40° F to 210° F and Operating Pressures up to 300psi. Use of a clamp to secure the hose to a fitting is recommended whenever consistent operating temperature exceeds 150° F.

TECH TIP:

It is important to ensure all hoses are thoroughly cleaned before use.

BILLET ALUMINUM ONE WAY CHECK VALVES

Vibrant Performance One-Way Check Valves are designed to prevent the flow back of all varieties of fuel, oil or coolant.

Manufactured from lightweight T6061 Billet Aluminum, our cost-effective Check Valves will stand up to the most rigorous operating environments. They are suitable for operating pressure up to 300psi, feature the ability to open under very low pressure (as low as 2psi) and have a functional operating temperature range of -30° F to 400° F

HARD LINES AND TUBE ADAPTERS

Vibrant Performance Hard Lines are ideal for Nitrous, Fuel and Water service. Simply flare with a 37 degree flaring tool and these lines will be ready for use with our Tube Nuts and Tube Sleeves listed below.

Our new offering of Hard Line Adapter Fittings offers a convenient solution for transitioning from Hard Lines to AN thread. Assembly and alignment is made quick and easy.

ALUMINUM AND STAINLESS STEEL HARD LINES

ALUMINUM HARD LINES

Part No.	Description
16410	5/16" OD (7.95mm) Aluminum Hard Line (25 foot spool)
16411	3/8" OD (9.5mm) Aluminum Hard Line (25 foot spool)

20916	Aluminum AN Wrench -16AN
20989	Set of 6 Wrenches (AN4 TO AN16)

ALUMINUM CRUSH WASHERS

Part No.	Description	Size
20923	Pack of 10 Aluminum Crush Washers	-3AN (10mm)
20924	Pack of 10 Aluminum Crush Washers	-4AN (11mm)
20926	Pack of 10 Aluminum Crush Washers	-6AN (14mm)
20928	Pack of 10 Aluminum Crush Washers	-8AN (18mm)
20930	Pack of 10 Aluminum Crush Washers	-10AN (22mm)
20932	Pack of 10 Aluminum Crush Washers	-12AN (27mm)
20936	Pack of 10 Aluminum Crush Washers	-16AN (33mm)
20998	Box Set, Aluminum Crush Washers Contains 10 of each washer	-3AN to -16AN

CLEAN CUT ADHESIVE TAPE

Vibrant Performance Clean Cut Adhesive Tape makes it easier to professionally cut braided flex hose, with virtually no fraying.

Use only the White Adhesive Tape when cutting Stainless Steel Braided Hoses. When cutting Nylon Braided hose, you must first apply a wrap of clear tape, followed by an application of the White Tape.

Part No. 2970

Part No. 2971

Part No.	Description
2970	2 Meter (6-1/2 ft) Roll of White clean cut tape
2971	5 Meter (16-1/2 ft) Roll of Clear clean cut tape

ADJUSTABLE AN WRENCH

Part No.	Description
20992	Adjustable AN Wrench, -3AN to -12AN

BILLET ALUMINUM VISE JAWS

Part No. 20990

FKM RUBBER O-RINGS

Part No.	Description	Size
20883	Pack of 10 Rubber O-Rings	-3AN
20884	Pack of 10 Rubber O-Rings	-4AN
20886	Pack of 10 Rubber O-Rings	-6AN
20888	Pack of 10 Rubber O-Rings	-8AN
20890	Pack of 10 Rubber O-Rings	-10AN
20892	Pack of 10 Rubber O-Rings	-12AN
20896	Pack of 10 Rubber O-Rings	-16AN
20999	Box Set, Rubber O-Rings Contains 10 of each washer	-3AN to -16AN

ALUMINUM WELD ON RADIATOR FILLER NECKS AND RAD CAPS

Part No.	Description
20980	Weld On Radiator Filler Neck - 32mm (1.25") ID
20981	Radiator Cap for Part #20980
20982	Weld On Radiator Filler Neck - 42mm (1.65") ID
20983	Radiator Cap for Part #20982

WELD BUNGS

Vibrant Performance offers an extensive selection of Aluminum and Mild Steel Weld Bungs. Ideal for use with Aluminum Radiators, Oil Pans, custom tank fabrication and any other project that requires customized plumbing.

MALE AN BUNGS

Bung Size/Thread	Aluminum Part No.	Mild Steel Part No.
Male -4 AN 7/16 - 20 SAE Thread, 3/4" Flange OD	11150	11250
Male -6 AN 9/16 - 18 SAE Thread, 7/8" Flange OD	11151	11251
Male -8 AN 3/4 - 16 SAE Thread, 1" Flange OD	11152	11252
Male -10 AN 7/8 - 14 SAE Thread, 1-1/8" Flange OD	11153	11253
Male -12 AN 1-1/16 - 12 SAE Thread, 1-3/8" Flange OD	11154	11254
Male -16 AN 1-5/16 - 12 SAE Thread, 1-5/8" Flange OD	11155	11255
Male -20 AN 1-5/8 - 12 SAE Thread, 1-3/4" Flange OD	11156	11256

FEMALE AN BUNGS

Bung Size/Thread	Aluminum Part No.	Mild Steel Part No.
Female -4 AN, 7/16" -20 Thread, 3/4" OD	11160	11260
Female -6 AN, 9/16" -18 Thread, 7/8" OD	11161	11261
Female -8 AN, 3/4" -16 Thread, 1" OD	11162	11262
Female -10 AN, 7/8" -14 Thread, 1-1/8" OD	11163	11263
Female -12 AN, 1-1/16" -12 Thread, 1-3/8" OD	11164	11264
Female -16 AN, 1-5/16" -12 Thread, 1-5/8" OD	11165	11265

2.75" OD Steel Weld Bung + Black Aluminum Threaded Cap	11297

UNIVERSAL CATCH CANS

Vibrant Performance offers the most versatile Universal Catch Cans on the market. Made entirely from T6061 Aluminum, it is suitable for various types of service: Oil, Fluid (i.e. Coolant) and even Vacuum.

Measuring 3" OD x 8 1/4" long out of the box, Vibrant Catch Cans give users the option of being cut down to length to accommodate the available space in your engine bay. The top End Cap is pressure fit and can be removed in order to shorten the Cannister. The bottom End Cap threads on to the Cannister for added security. Both End Caps feature multiple tapped ports for ultimate flexibility (plugs are supplied for unused ports). A pair of threaded One-Touch Elbow Fittings and an 8" length of clear Polyethylene Tubing are also included in the kit to serve as a fluid level gauge.

Top End Cap is pressure fit

Each End Cap features 6 threaded ports, tapped for 1/2" NPT fittings.

Bottom End Cap now threads on for added security. O-ring is included to ensure a leak free seal.

Each End Cap also features a port tapped for 3/4" NPT fittings, perfect for running a breather filter off your Catch Can.

All Vibrant Performance Catch Cans include a unique mounting bracket that provides the installer enormous flexibility when trying to determine the best way to mount the Catch Can.

Part No.	Description
12688	3" O.D. Universal Catch Can - Anodized Silver
12689	3" O.D. Universal Catch Can - Anodized Black

CATCH CAN FILTER KIT

This kit includes a 1" I.D. Crankcase Breather Filter and 1" O.D. Aluminum Male Fitting, tapped to thread into the 3/4" NPT port found on Vibrant Performance Catch Cans.

Part No. 12672

ALUMINUM THREAD-ON VACUUM SCAVENGER

Vibrant's unique Thread-on Vacuum Scavenger is designed to allow you to pull excess vacuum from your motor without having to modify your valve cover. This can help in a variety of ways, including ensuring that unburned fuel vapours are removed from the motor to avoid oil contamination. It also helps with "blow by" on boosted motors.

The Adapter threads onto OE Honda / Acura oil filler necks. No welding is required. The low profile design provides excellent hood clearance. The outlet port is tapped for a 1/4" NPT Fitting (a 1/4" NPT x -8AN Adapter Fitting is included). We also include a threaded Aluminum Oil Cap but you can use your stock Honda / Acura oil cap if you prefer. Includes FKM Rubber O-Rings for a leak free seal.

Part No. Application

12670 Aluminum Vacuum Scavenger for Honda / Acura Motors - Polished

Vibrant Performance has teamed up with DCI Performance Products™ of Australia to bring DCI's industry leading Heat and Acoustic Shielding products to the North American Automotive High Performance aftermarket. Over the past 15 years, DCI has been making a name for themselves as a respected Tier 1 and Tier 2 supplier of shielding solutions for many of the world's leading car makers. Their brand has also become a staple for many of the top race teams in Australia and North America. Their patented technology allows them to create superior heat and acoustic shields that are lightweight, recyclable, easy to install and cost effective.

HEAT SHIELDS

Don't let heat affect the integrity of your car or the quality and comfort of your ride. SHEETHOT™ shielding products from DCI protect your car and its components from heat damage and prevents heat transfer to the interior.

SHEETHOT™ TF-600 Heat Shield

TF-600 Heat Shields are ideal for use on underbody components where rigid and robust shielding is required. Suitable for up to 1100°F (600°C).

SHEETHOT™ TF-400 Heat Shield

TF-400 Heat Shields are ideal when easy manipulation of the shielding is needed for proper installation on underbody components. Suitable up to 1100°F (600°C).

SHEETHOT™ FLEX ADHESIVE

Ideal for shielding areas of your vehicle where mechanical fasteners can't be used (e.g. fuel tanks, certain engine bay components, etc.). The adhesive backing makes installation easy. Suitable up to 490°F (255°C).

Part No.	Description	Sheet Size
25400L	SHEETHOT™ TF-400 Heat Shield – Large Sheet	26 3/4" x 17" (680mm x 430mm)
25400S	SHEETHOT™ TF-400 Heat Shield – Small Sheet	11 3/4" x 9" (300mm x 230mm)
25600L	SHEETHOT™ TF-600 Heat Shield – Large Sheet	26 3/4" x 17" (680mm x 430mm)
25600S	SHEETHOT™ TF-600 Heat Shield – Small Sheet	11 3/4" x 9" (300mm x 230mm)
25200L	SHEETHOT™ FLEX ADHESIVE – Large Sheet	39 1/4" x 20" (1000mm x 500mm)

XT-1000 AND XT-5000 HEAT SHIELDS

High Performance vehicles and High Temperatures go hand in hand. Unfortunately, extreme heat can affect your car's output as well as potentially causing serious damage to vehicle components. SHEETHOT EXTREME™ XT-1000 and XT-5000 Heat Shields deliver an effective solution, protecting your car from heat damage and allowing you to maximize performance and longevity. These are ideal for exhaust manifolds and turbo systems.

Part No.	Description	Sheet Size
25000L	XT-5000 Heat Shield (Suitable up to 1830°F)	31" x 11-1/2" (790mm x 290mm)
25000S	XT-5000 Heat Shield (Suitable up to 1830°F)	11 3/4" x 9" (300mm x 230mm)
25010L	XT-1000 Heat Shield (Suitable up to 1650°F)	31" x 11-1/2" (790mm x 290mm)

TECH TIP

- Use a cardboard template to determine shape, size and form of the required shield.
- When cutting your template, be sure to add an extra 3/8" (approx 10mm) all around to allow for folded edges.
- These shielding materials can be easily cut using sharp scissors or tin snips.
- Fold edges over before forming/shaping the shield to prevent layer separation, increase shield strength and to avoid cuts
- Mechanical fasteners such as screws, bolts, pop rivets and stainless steel clamps are recommended for attachment. Custom brackets may be required in some cases.
- Where possible, allow a 3/8"-3/4" (10mm-20mm) air gap between the shield and the component being shielded.
- When handling these materials, always wear gloves and safety glasses. Cover all skin that may come in contact with the material.
- Neither Vibrant Performance nor DCI Performance Products will accept responsibility for any harm incurred due to improper usage of these or other products.

Don't let irritating noises affect ride quality and comfort! DCI'S QUIETSHEET™ Acoustic Shields significantly reduce unwanted noise from making its way into your vehicle's cabin and will make driving a significantly more enjoyable experience.

QUIETSHEET™ Diamond Acoustic Shields

Ideal for sound deadening / absorption and is intended for Direct-to-Surface application. Features an adhesive backing to provide hassle free installation. Suitable up to 390°F (200°C).

Part No.	Description	Sheet Size
25700L	QUIETSHEET™ Diamond Acoustic Shield	27-1/2" x 10-1/4" (70mm x 260mm)
25770L	QUIETSHEET™ Diamond Acoustic Shield	30" x 26-3/4" (760mm x 680mm)

TECH TIP

- It is recommended that this product is heated with a hair dryer / heat gun during installation.
- Ensure surfaces are clean and dry, free from grease and dirt.
- As this is a self-adhering shield, no fasteners are required. Suitable for interior or exterior use.

PREFORMED HEAT SHIELDS

DCI offers SHEETHOT™ Pipe Shields for mounting directly to straight sections of tubing as well as to sections of tubing that are bent at 90 degrees. Made from the same material as the TF-600 SHEETHOT™ material (6 layer dimpled Aluminum). Suitable for temperatures up to 1100°F (600°C). Easy to install.

Pipe Shields for straight tubing

Part No.	Description
25312	SHEETHOT™ Preformed Pipe Shield for 2"-3" O.D. Straight Tubing (1 foot length)
25324	SHEETHOT™ Preformed Pipe Shield for 2"-3" O.D. Straight Tubing (2 foot length)
25526	SHEETHOT™ Preformed Pipe Shield for 5" O.D. Straight Tubing (26" length)

Pipe Shields for 90 degree bends

Part No.	Description
25390	SHEETHOT™ Preformed 90 degree Pipe Shield for 2"-3" O.D. tubing (8" radius bend, 18" long)
25590	SHEETHOT™ Preformed 90 degree Pipe Shield for 5" O.D. tubing (11" bend radius, 20" long)

TURBO SHIELD

Part No. 25035

DCI's preformed Turbo Shield is designed to fit up to Garrett's GT30/35 Turbo Housing. Includes mounting hardware. Made from the same material as the XT-5000 material which is suitable for temperatures up to 1830°F (1000°C).

STARTER MOTOR HEAT SHIELD KIT

These universal Heat Shield kit is designed to suit 63mm to 85mm starter motors. Made from the TF-600 SHEETHOT™ material. This kit includes Heat Shield, brackets, rivets and installation instructions. Some assembly required.

Part No. 25696

ENGINE MOUNT HEAT SHIELD KIT

This universal Heat Shield kit is able to fit to a wide variety of engine mounts. Made from the TF-600 SHEETHOT™ material this kit includes Heat Shield, brackets, rivets and installation instructions. Some assembly required.

Part No. 25695

ALUMINUM TAPE

Part No.	Description
25120	20ft roll of Aluminum Tape
25150	165ft (50 meter) roll of Aluminum Tape

HOSE PROTECTION SOLUTIONS

FLEXIBLE SPLIT SLEEVING

These lightweight, Flexible Braided Sleeves are easy to install due to the unique self-wrapping split braid that allows for the addition or removal of wires, hoses or cables without complete disassembly. As an added bonus, there is no need for fasteners like Velcro or tape, as these sleeves feature a 25% edge overlap and allow tight radius bending without distorting or splitting open.

It is recommended to cut this type of sleeving with a hot knife to prevent fraying.

Nominal Size	Sleeve Length	Part No.
1/4"	10ft	25800
1/2"	10ft	25801
3/4"	10ft	25802
1"	5ft	25804
1 1/2"	5ft	25806

Available in Black Only.

HEAT PROTECT FLEXIBLE SLEEVING

These silicone wrapped fiberglass sleeves are ideal when you require protection from constant temperatures up to 500°F.

The Heat Protect sleeving is highly flexible and is engineered to protect hoses, cables and wire harnesses from damage caused by exposure to extreme heat, open flame and weld sparks. It will also contain radiant heat, saving nearby components from heat damage. This sleeving will resist automotive chemicals and solvents and provides protection from abrasions, punctures and moisture.

Nominal Size	2ft Length Part No.	5ft Length Part No.	Use with AN Hose
1/2"	25840	25810	-4
5/8"	25845	25815	-6
3/4"	25841	25811	-8
7/8"	25842	25812	-10
1"	25843	25813	-12
1 1/4"	25846	25816	-16
1 1/2"	25847	25817	-20

Available in Black Only.

EXTREMESHIELD 1200 FLEXIBLE TUBING

ExtremeShield Flexible Tubing provides easy slip-on installation and outstanding protection for your wires, hoses and cables from temperatures up to 1200 deg F.

This product features an aluminized heat shield that is laminated to tightly braided fiberglass insulation which provides superior protection from radiant heat.

This tubing is not expandable so be sure to measure your application carefully.

Nominal Size	Sleeve Length	Part No.
1/2"	5ft	25820
3/4"	5ft	25821
1"	5ft	25822
1 1/4"	5ft	25823
1 1/2"	5ft	25824

Available in Silver Only.

EXTREMESHIELD 1400 FLEXIBLE REFLECTIVE WRAP

Our popular EXTREMESHIELD 1400 Thermal Wrap is designed for easy installation on lines and hoses that are difficult to disassemble. Features an Aluminized outer layer that is bonded to insulating self-wrapping Fiberglass.

Simply wrap the pre-formed split tubing around your components and seal it with the high temperature adhesive strip included to provide protection from hot engine components. Tested to withstand and reflect temperatures (up to 1400 deg. F). Cuts cleanly with a simple pair of scissors

Nominal Size	Sleeve Length	Part No.
1/2"	4ft	25830
3/4"	4ft	25831
1"	4ft	25832
1 1/4"	4ft	25833
1 1/2"	4ft	25834

SPARK PLUG BOOT INSULATOR

Protect your spark plug wires at the connection to the boot with these easy, slip on braided Fiberglass Insulation Sleeves. Protects up to 1200 deg F and requires no clearance from heat source

Part No.	Size	Quantity	Color
25890	3/4" dia	4 / pack	Natural
25891	3/4" dia	4 / pack	Black

STAINLESS STEEL CABLE TIES

Our Stainless Steel Cable Ties are ideal for installing/securing heavy duty and high temp sleeving. Easy to install without special tools.

Size	Quantity	Part No.
7.5" long ties	10 / pack	25895
14.5" long ties	10 / pack	25898

REPLACEMENT WINDSHIELD WASHER BOTTLE KITS

The factory windshield washer bottle installed on most vehicles is a major inconvenience because they are often very large and take up so much space. This is especially true for anyone who has ever installed a turbocharger or supercharger on their car, or simply needed to free up space in their engine bay. Many people simply remove the stock bottle and hope they will never need it. Vibrant Performance now offers a choice of two compact universal washer bottle kits that include everything you need to replace the OEM bottle.

Bottle dimension: 7 7/8" Tall x 5 1/4" Wide x 4 1/4" Deep

Part No.	Description
10400	Windshield Washer Bottle Replacement Kit (1.2L Bottle)
10405	Replacement Electric Pump for 1.2L bottle

Bottle dimension: 7 3/4" Tall x 6 1/4" Wide x 4 3/4" Deep

Part No.	Description
10402	Windshield Washer Bottle Replacement Kit (1.8L Bottle)
10406	Replacement Electric Pump for 1.8L bottle

Each kit includes a high quality plastic Washer Bottle, Electric Pump, Electric Plug with wire, Mounting Bracket and a Length of Hose to adapt to the factory system.

Huge OEM washer bottle can create significant clearance problems.

Vibrant Performance washer bottles are very compact allowing much more space for aftermarket add-ons.

EXHAUST MANIFOLD FLANGES

3/8" Thick Stainless Steel Exhaust Manifold Flanges

- port sizing optimized for use with standard wall round tubing

Part No. 1460M

Part No. 14464

1/2" Thick Mild Steel Exhaust Manifold Flanges

- port sizing optimized for use with Sch. 10 or Sch. 40 pipe

14725	VW/Audi 2.5L 5cyl motor (Available 2005 and up)

Please refer to www.VIBRANTPERFORMANCE.com for photo and dimensional information for all of our exhaust manifold flanges.

STAINLESS STEEL MANDREL BENDS

T304 STAINLESS STEEL OVAL MANDREL BENDS

Part No.	Nominal Size	Bend Angle	Tube Thickness	Centerline Radius
13189	3"	45 deg. (horizontal)	16 gauge	4 1/2"
13191	3"	90 deg. (horizontal)	16 gauge	4 1/2"
13200	3"	45 deg. (vertical)	16 gauge	4 1/2"
13202	3"	90 deg. (vertical)	16 gauge	4 1/2"
13192	3 1/2"	45 deg. (horizontal)	16 gauge	5 1/4"
13194	3 1/2"	90 deg. (horizontal)	16 gauge	5 1/4"

All Oval Bends feature 6" leg lengths

T304 S.S. OVAL TUBING, STRAIGHT LENGTHS

Part No.	Nominal Size	Tube Thickness	Overall Length
13182	3"	16 gauge	5 ft.
13183	3 1/2"	16 gauge	5 ft.
13184	4"	16 gauge	5 ft.

Please note: Overall length tolerance = +/- 2"

T304 S.S. OVAL TO ROUND TRANSITIONS

Part No.	Description	Overall Length
13170	3" Oval (nom.) to 3" Round	6"
13171	3 1/2" Oval (nom.) to 3 1/2" Round	6"
13172	4" Oval (nom.) to 4" Round	6"

TECH TIP

The nominal size listed for oval tubing approx. equals the equivalent diameter for like-size round tubing.

Nominal Size	Actual Tube Size
3"	2.20" x 3.45"
3.5"	2.375" x 4.125"
4"	2.60" x 4.80"

T304 S.S. OVAL FLANGES

Part No.	Description
13175S	Fits 3" Nom. Oval tubing
13176S	Fits 3 1/2" Nom. Oval tubing
13177S	Fits 4" Nom. Oval tubing

Please Note: Vibrant also offers Genuine Torca® Stainless Steel Easy Seal Exhaust Sleeve Clamps which permit effective clamping of our 3", 3 1/2" and 4" nominal oval tubing (please refer to pg. 75).

U-J MANDREL BENDS

Vibrant U-J Mandrel Bends give you a 180° bend, a 45° bend and a straight leg, making them an economical option for custom fabricators because each piece can yield up to three separate bends and a straight section.

Ideal for custom fabricating exhaust systems, headers and intercooler pipes.

Available in T304 Stainless Steel and Aluminized (Mild) Steel.

TECH TIP

Customers often ask us what type of filler rod should be used when welding all the different products we offer. The following is a quick reference guide for the most commonly asked questions:

- For Welding 304 S.S. to 304 S.S. use 308 filler rod
- For Welding 304 S.S. to 321 S.S. also use 308 filler rod
- For Welding 304 S.S. to Mild Steel, use 309 filler rod

For welding 6061-T6 Aluminum, we suggest either 5356 or 4043 filler rod. 5356 is stronger, more ductile and most suitable if you intend to anodize the aluminum after welding. 4043 is more crack resistant, especially if you intend to heat treat the aluminum and it will perform better if the aluminum product you are welding is exposed to elevated temperatures (150 deg. F and up).

Please refer to page 65 of this catalog to view the full offering of Vibrant Performance TIG Weld Wires.

T304 S.S. CONCENTRIC REDUCERS

Part No.	Description
2685	1 1/2" x 2" Reducer, 2" overall length
2686	2" x 2 1/2" Reducer, 2" overall length
2630	2 1/2" x 3" Reducer, 2" overall length
2632	3" x 4" Reducer, 4" overall length

Please note: Overall length tolerance = +/- .2"

TIG WELD WIRES

Vibrant Performance now offers a wide array of TIG Weld Wires in several popular material grades and thicknesses.

Vibrant Weld Wire offers outstanding weld properties so that you can lay down a top quality bead.

Sold in cost effective 1lb. and 3lb. pre-packs. Only buy what you need!

Call to inquire about Bulk Quantities.

STAINLESS STEEL MERGE COLLECTORS

Vibrant Performance offers a comprehensive, high quality and affordably priced range of T304 Stainless Steel Merge Collectors to help free up maximum horsepower from your exhaust setup.

All Vibrant Performance Merge Collectors feature complete T304 Stainless Steel construction, precise fabrication, top quality TIG welds at every seam and hand porting inside the collector for smooth, unobstructed exhaust flow.

Close up view of inside of a Vibrant Performance Merge Collector.

HOW DO MERGE COLLECTORS WORK:

In order to maximize torque and horsepower, a vehicle's header and exhaust system must optimize exhaust gas velocity. Anything that reduces exhaust gas speed will negatively impact performance. A header featuring a conventional collector generally suffers from a significant reduction in exhaust gas velocity at the transition from the primaries into the collector. This drop in velocity will decrease volumetric efficiency and reduce scavenging ability. This is key because optimizing volumetric efficiency of an exhaust system allows for improved air/fuel mixture in the combustion chamber, thereby improving an engine's horsepower and torque production potential.

A properly fabricated Merge Collector significantly minimizes the exhaust gas velocity loss at the transition from primary tubes to the collector and as a result, the volumetric efficiency potential of an exhaust system is significantly improved.

To get maximum benefit from Merge Collectors, dyno testing is crucial to ensure your set up is able to realize its full potential.

2 INTO 1 MERGE COLLECTORS

Vibrant Performance 2 into 1 Merge Collectors are ideal for a variety of custom exhaust fabrication projects, including building X-pipes or creating a slip fit Tri-Y Merge Collector setup. You can expect to pick up some extra horsepower simply by swapping out your car's OEM 2 into 1 transition with one of these Vibrant Y-style Merge Collectors.

All Vibrant 2 into 1 Merge Collectors are precision manufactured entirely from T304 Stainless Steel and feature top quality TIG welds.

WELD ON COLLECTOR TAB SET

Spring length is 3 1/2"

Part No.	Description
10340	Set of S.S. collector tabs, (2 tabs, 1 spring)

STAINLESS STEEL DOUBLE SLIP JOINT FITTINGS

- T304 Stainless Steel construction
- Three piece, leak free connection provides lowest possible profile exhaust connection on the market
- Eliminates any ground clearance issues
- Great for making tubular Turbo Manifolds and Dump Tubes as well as being popular for motorcycle exhaust fabrication
- Slip Fit tolerances will tighten after heat cycle and welding

Part No.	Description
13282	For use with 1 1/2" O.D. tubing
13284	For use with 1 3/4" O.D. tubing
13286	For use with 2" O.D. tubing
13290	For use with 2 1/2" O.D. tubing
13292	For use with 3" O.D. tubing

STAINLESS STEEL FLEXIBLE COUPLINGS

Vibrant Power Inc. is a world leader in the design and production of Stainless Steel Flexible Couplings. Vibrant Flexible Couplings are engineered to isolate vibration generated by the engine, thereby relieving stress on your vehicle's exhaust system. They will reduce premature cracking of manifolds and downpipes and help extend the life of other components.

STAINLESS STEEL BELLOWS ASSEMBLIES (WITH SOLID LINER)

- Features a directional, smooth flow solid liner.
- Full T304 Stainless Steel construction, including Weld Necks.

Part No.	Inlet / Outlet I.D.	Flex Length
67327	1 1/2" (38.1mm)	2 3/4" (63.5mm)
67425	1 3/4" (44.9mm)	2 1/2" (63.5mm)
67527	1 7/8" (47.6mm)	2 3/4" (63.5mm)
67632	2" (50.8mm)	3 1/4" (82.5mm)

TURBO FLEX WITH INTERLOCK LINER

Vibrant's Turbo Flex Coupling features an internal Stainless Steel Interlock Liner to facilitate smooth flow of high temperature exhaust gases. Recommended for all high flowing, high temperature applications (e.g. forced induction).

Part No.	Inlet/Outlet I.D.	Flex Length
60404	1 3/4" (44.9mm)	4" (102mm)
60604	2" (51.3mm)	4" (102mm)

61410	5" (127mm)	10" (254mm)

STANDARD FLEX COUPLINGS WITH INNER BRAID LINER

TECH TIP

Best Suited for Naturally Aspirated applications. Not recommended for Forced Induction Applications.

Vibrant Flex Couplings with Inner Braid Liner provide laminar flow while retaining flexibility in the coupling itself. The Inner Braid protects the Bellows from premature failure, and is ideal for eliminating exhaust "whistle".

Part No.	Inlet/Outlet I.D.	Flex Length
62304	1 1/2" (38.6mm)	4" (102mm)
62306	1 1/2" (38.6mm)	6" (152mm)

OBD1 CATALYTIC CONVERTERS

The Catalytic Converters on this page are suitable for OBD1 vehicles only (1995 or older), excluding those registered in California.

UNIVERSAL METAL CORE CATALYTIC CONVERTERS

Vibrant Performance Metal Core Catalytic Converters are made entirely of Stainless Steel and feature a Monolith that is far more durable and capable of withstanding higher operating temperatures than a traditional ceramic catalyst. Enjoy up to a 40% improvement in exhaust gas flow over a typical ceramic core converter.

These Converters are covered by a 5 year / 50,000 mile warranty (warranty applicable to outer shell only).

E.P.A. approved for OBD1 only (49 State only).

For use on engines up to 5.0L.

IMPORTANT: These Catalytic Converters are not for use on vehicles registered in California as a result of California Vehicle Code Sec. 27156 and 38391.

TECH TIP

An overly rich Air/Fuel ratio (i.e. 11.5:1 or lower) or operating temperatures exceeding 1200 degrees can cause premature catalytic converter failure, voiding the warranty.

Vibrant Universal Metal Core Race Converters feature an ultra high flow, 200 cell per square inch catalyst flowing at 578 CFM.

Part No.	Inlet/Outlet	Converter Body O.D.	Overall Length
7100	2 1/4"	4"	10"
7101	2 1/2"	4"	10"
7102	3"	4"	10"

UNIVERSAL CERAMIC CORE CATALYTIC CONVERTERS

Vibrant Performance Ceramic Core Catalytic Converters feature a substrate that flows more freely than a typical stock converter, thereby improving horsepower by reducing back pressure while still meeting E.P.A. requirements for OBD1 vehicles (49 State).

The shell is constructed from Stainless Steel and is covered by a 5 year / 50,000 mile warranty (warranty applicable to shell only).

IMPORTANT: These Catalytic Converters are not for use on vehicles registered in California as a result of California Vehicle Code Sec. 27156 and 38391.

Round ceramic core converters

Part No.	Inlet / Outlet	Converter Body O.D.	Overall Length
7000	2"	5 1/4"	12"
7001	2 1/4"	5 1/4"	13"
7038	2 1/2"	5 1/4"	13"
7039	3"	5 1/4"	13"

Oval ceramic core converters

Part No.	Inlet / Outlet	Converter Body Dimensions	Overall Length
7002	2"	6 1/4" x 4"	13"
7003	2 1/4"	6 1/4" x 4"	13"
7013	2 1/2"	6 1/4" x 4"	13"
7029	3"	6 1/4" x 4"	16"

Please Note: Aftermarket converters are only permitted if your vehicle does not have a converter or if a government emissions testing program has determined that the existing converter needs replacement. It is prohibited by law in the United States and Canada to remove a properly functioning catalytic converter.

UNSURE OF WHAT CATALYTIC CONVERTER IS RIGHT FOR YOUR CAR? CALL US! 1-905-564-2808

Say goodbye to Converter Failures, Check Engine Lights and failed emissions tests on your high performance vehicle.

Vibrant Performance and Global Emissions Systems Inc. (GESi®) have teamed up to supply a series of OBD2 (1996 and newer) high flow Catalytic Converters that provide peace of mind and reliability under extreme conditions while providing highly effective long term emission control solutions.

The GESi® sponsored Team Go Green Pro-Mod Camaro

GESi® is a recognized global leader in the design, engineering and production of emission control systems for all types of fuel burning engines, whether it be spark, rotary or compression. Their technology has been proven effective on engines that burn all varieties of commercial fuels, including gasoline, propane, natural gas, diesel and bio-diesel.

For the automotive sector, GESi® possesses proprietary emissions reduction technology that sets their Catalytic Converters apart and offers a solution to owners of high performance vehicles who simply cannot find Catalytic Converters capable of consistently surviving the extreme conditions that those engines create.

GESI® HIGH OUTPUT AND ULTRA HIGH OUTPUT UNIVERSAL OBD2 COMPLIANT CATALYTIC CONVERTERS

GESi® High Output (HO-series) and Ultra High Output (UHO-series) Universal Catalytic Converters provide a reliable solution to the most common Converter problems experienced by owners of high performance vehicles.

- EPA certified for use on OBD2 vehicles (1996 and newer) in jurisdictions where the installation of Universal Catalytic Converters is still permitted (check with local authorities before installation).
- Full stainless steel construction, including the Substrate which is furnace braised to the mantle for outstanding, unparalleled durability.
- Unique end-cap design locks substrate into place. No More Rattling!
- GESi® has proprietary precious metal loading technology that ensures greatly reduced emissions, eliminating almost all CEL issues.
- Capable of withstanding up to 1500° F.
- Ideal for forced induction applications, with virtually no loss of exhaust flow (less than 1% flow degradation).
- Covered by a 5 year / 50,000 mile warranty (on shell and tube ends only)
- These are the best high flow Catalytic Converters money can buy.

HO-series Catalytic Converters (rated for 350-500HP)

Part No.	Inlet / Outlet	Converter Body O.D.	Overall Length
7525	2 1/2"	4"	7"
7530	3"	4"	7"

UHO-series Catalytic Converters (rated for 500-850HP)

Part No.	Inlet / Outlet	Converter Body O.D.	Overall Length
7830	3"	4 1/2"	7 1/2"
7840	4"	4 1/2"	7 1/2"

VEHICLE EMISSIONS INSPECTION REPORT

Overall Result	Emissions	Evaporative Systems	Equipment Inspection	Smoke	OBD Codes
PASS	PASS	PASS	PASS	PASS	PASS

EMISSIONS TEST INFORMATION

	READINGS	LIMITS	RESULTS
HC GPM	0.0430	1.200	PASS
CO GPM	0.540	15.000	PASS
NOx GPM	0.059	1.5000	PASS
Check Engine Light			PASS

These are typical emissions test results enjoyed by owners of high performance vehicles who run GESi® Catalytic Converters

GESI® UNIVERSAL CERAMIC CORE CATALYTIC CONVERTERS

GESi® Ceramic Core High Flow Catalytic Converters feature the same precious metal loading technology incorporated into the High Output Metal Core Converters and the large, high flowing Ceramic Honeycomb Catalyst performs significantly better than a typical stock Converter and will put an end to most "Check Engine Light" problems.

The external shell features full stainless steel construction, including a mirror polished heat shield. Covered by a 5 year / 50,000 mile warranty (on shell and tube ends only).

Please note: These catalytic converters are not legal for use on vehicles registered in California as a result of California Vehicle Code Sec. 27156 and 38391.

Part No.	Inlet/Outlet	Dimensions
7225	2 1/2"	7 1/4" x 3 3/4" oval, 12" Body Length (18" overall length)
7230	3"	7 1/4" x 3 3/4" oval, 12" Body Length (18" overall length)

V-BAND FLANGE ASSEMBLIES

V-Band Flanges are an excellent alternative to traditional flanged or slip fit tube connections. Offering a low profile and modular connection, V-Band Flange Assemblies work especially well under operating conditions involving stress, vibration and significant temperature fluctuations. The V-Band clamp design allows for a quick release, gasket free seal as well as superior positive retention vs. other tube coupling methods.

Vibrant V-Band Flanges feature a unique "Male/Female" design to ensure proper alignment inside the clamp. Flanges are available in both T304 Stainless Steel or T6061 Billet Aluminum construction. V-Band Clamps are made from 300 series Stainless Steel.

Vibrant V-band Flanges feature a unique male/female locking design to ensure proper flange alignment

STAINLESS STEEL V-BAND FLANGE ASSEMBLIES

(Includes 2 Stainless Steel V-Band Flanges and 1 V-Band Clamp).

Part No.	Description
1486	S.S. V-Band Flange Assembly for 1 1/2" O.D. Tubing
1487	S.S. V-Band Flange Assembly for 1 3/4" O.D. Tubing
1488	S.S. V-Band Flange Assembly for 2" O.D. Tubing
1489	S.S. V-Band Flange Assembly for 2 1/4" O.D. Tubing
1497	S.S. V-Band Flange Assembly for 2 3/8" O.D. Tubing
1490	S.S. V-Band Flange Assembly for 2 1/2" O.D. Tubing
1496	S.S. V-Band Flange Assembly for 2 3/4" O.D. Tubing
1491	S.S. V-Band Flange Assembly for 3" O.D. Tubing
1492	S.S. V-Band Flange Assembly for 3 1/2" O.D. Tubing
1493	S.S. V-Band Flange Assembly for 4" O.D. Tubing
1494	S.S. V-Band Flange Assembly for 5" O.D. Tubing

STAINLESS STEEL V-BAND FLANGES, INDIVIDUAL

Description	Flange O.D.	Flange Thk.	T304 S.S. Flange Part No.
V-Band Flange for 1 1/2" O.D. Tubing	52mm	9/16"	1486S
V-Band Flange for 1 3/4" O.D. Tubing	59mm	9/16"	1487S
V-Band Flange for 2" O.D. Tubing	65mm	9/16"	1488S
V-Band Flange for 2 1/4" O.D. Tubing	71mm	9/16"	1489S
V-Band Flange for 2 3/8" O.D. Tubing	81mm	5/8"	1497S
V-Band Flange for 2 1/2" O.D. Tubing	81mm	5/8"	1490S
V-Band Flange for 2 3/4" O.D. Tubing	96mm	5/8"	1496S
V-Band Flange for 3" O.D. Tubing	96mm	5/8"	1491S
V-Band Flange for 3 1/2" O.D. Tubing	105mm	5/8"	1492S
V-Band Flange for 4" O.D. Tubing	117mm	5/8"	1493S
V-Band Flange for 5" O.D. Tubing	146mm	5/8"	1494S

ALUMINUM V-BAND FLANGE ASSEMBLIES

(Includes 2 Aluminum V-Band Flanges, 1 Stainless Steel V-Band Clamp and 1 FKM Rubber O-Ring)

Part No.	Description
11488	Aluminum V-Band Flange Assembly for 2" O.D. Tubing
11490	Aluminum V-Band Flange Assembly for 2 1/2" O.D. Tubing
11491	Aluminum V-Band Flange Assembly for 3" O.D. Tubing
11492	Aluminum V-Band Flange Assembly for 3 1/2" O.D. Tubing
11493	Aluminum V-Band Flange Assembly for 4" O.D. Tubing

Just like our Stainless Steel V-Band assemblies, Vibrant Aluminum V-Band Flange Kits feature a unique male/female locking design to ensure proper flange alignment.

TECH TIP

- Aluminum V-Band Flanges are not recommended for:
- High heat applications (350°C max)
 - For exhaust applications before the Catalytic Converter

ALUMINUM V-BAND FLANGES, INDIVIDUAL

Description	Flange O.D.	Flange Thk.	Aluminum Flange Part No.	Replacement O-Ring Part No.
V-Band Flange for 2" O.D. Tubing	65mm	9/16"	11488S	11488R

An FKM Rubber O-Ring is included with our Aluminum V-band Flange sets. Replacement O-Rings are also available for purchase.

STAINLESS STEEL V-BAND CLAMPS (QUICK RELEASE)

- Features complete 300 series Stainless Steel Construction
- Hardware has been upgraded for added durability

Part No.	Description
1486C	S.S. V-Band Clamp Assembly for 1 1/2" V-Band Flanges
1487C	S.S. V-Band Clamp Assembly for 1 3/4" V-Band Flanges
1488C	S.S. V-Band Clamp Assembly for 2" V-Band Flanges
1489C	S.S. V-Band Clamp Assembly for 2 1/4" V-Band Flanges
1490C	S.S. V-Band Clamp Assembly for 2 3/8" & 2 1/2" V-Band Flanges
1491C	S.S. V-Band Clamp Assembly for 2 3/4" & 3" V-Band Flanges
1492C	S.S. V-Band Clamp Assembly for 3 1/2" V-Band Flanges
1493C	S.S. V-Band Clamp Assembly for 4" V-Band Flanges
1494C	S.S. V-Band Clamp Assembly for 5" V-Band Flanges

STAINLESS STEEL EXHAUST FLANGES

Vibrant Performance Stainless Steel Exhaust Flanges are available in sizes ranging from 2" to 4" I.D. and a choice of 2 and 3 bolt configurations. All Flanges are 3/8" (10mm) thick. They can be purchased individually or in cost effective Boxes of 5.

2 BOLT EXHAUST FLANGE APPLICATION LIST

Description	Box of 5 Part No.	Single Unit Part No.	Width	Height	Bolt Circle	Thickness	Matching Gasket Part No.
2 Bolt Flange (2" ID)	1470	1470S	4.90" (125mm)	3.00" (76mm)	3.50" (89mm)	3/8" (10mm)	1455

3 BOLT EXHAUST FLANGE APPLICATION LIST

Description	Box of 5 Part No.	Single Unit Part No.	Width	Height	Bolt Circle	Thickness	Matching Gasket Part No.
3 Bolt Flange (2.25" ID)	1481	1481S	3.90" (99mm)	3.90" (99mm)	3.25" (82mm)	3/8" (10mm)	1461
3 Bolt Flange (2.5" ID)	1482	1482S	3.90" (99mm)	3.90" (99mm)	3.42" (87mm)	3/8" (10mm)	1462
3 Bolt Flange (2.75" ID)	1485	1485S	4.15" (105mm)	4.15" (105mm)	3.42" (87mm)	3/8" (10mm)	1466
3 Bolt Flange (3" ID)	1483	1483S	4.37" (111mm)	4.31" (109mm)	3.88" (98mm)	3/8" (10mm)	1463
3 Bolt Flange (3.5" ID)	1484	1484S	4.82" (122mm)	4.69" (119mm)	4.46" (113mm)	3/8" (10mm)	1464

Please Note:

Vibrant Performance offers T304 Stainless Steel Flanges designed to match our Oval Tubing (please refer to page 61).

Tech Tip:

Double Slip Joints provide an effective solution when traditional flanges do not offer enough ground clearance.

EXHAUST GASKETS (2 BOLT AND 3 BOLT)

Vibrant Performance multi-layer Graphite Gaskets help ensure a proper, leak-free seal for your 2 bolt and 3 bolt flanged connections. These gaskets are suitable for high temperature service and are available in sizes ranging from 2" to 4" ID.

2 BOLT GASKETS

Part No.	Description
1455	2" I.D. Gasket
1456	2 1/4" I.D. Gasket
1457	2 1/2" I.D. Gasket
1465	2 3/4" I.D. Gasket
1458	3" I.D. Gasket
1459	4" I.D. Gasket

3 BOLT GASKETS

Part No.	Description
1461	2 1/4" I.D. Gasket
1462	2 1/2" I.D. Gasket
1466	2 3/4" I.D. Gasket
1463	3" I.D. Gasket
1464	3 1/2" I.D. Gasket

EXHAUST CLAMPS

TC SERIES EXHAUST COUPLERS

Vibrant Performance is pleased to offer genuine Torca® Stainless Steel TC Series High Performance Exhaust Couplers. These heavy duty Clamps allow for very secure sealing of butt-joint connections.

Part No.	Description
1171	S.S. Sleeve Clamp for 2 1/2" O.D. Tubing
1176	S.S. Sleeve Clamp for 2 3/4" O.D. Tubing
1177	S.S. Sleeve Clamp for 3 1/2" O.D. Tubing

EASY SEAL EXHAUST SLEEVE CLAMPS

Genuine Torca® Stainless Steel Easy Seal Exhaust Sleeve Clamps provide a simple, effective way to connect exhaust system components. Fast, easy and accurate installation - there's no need to separate pipes before clamping.

Part No.	Description
1179	S.S. Sleeve Clamp for 2" O.D. Tubing
1170	S.S. Sleeve Clamp for 2 1/4" O.D. Tubing
1172	S.S. Sleeve Clamp for 3" O.D. Tubing (works with 3" oval tubing)
1174	S.S. Seal Clamp for 3 1/2" O.D. Tubing (works with 3 1/2" oval tubing)
1178	S.S. Seal Clamp for 4" O.D. Tubing (works with 4" oval tubing)

Torca® Easy Seal Clamps also permit effective clamping of Vibrant Performance 3", 3 1/2" and 4" nominal oval tubing.

EXHAUST SEAL CLAMPS

Vibrant Performance is pleased to offer genuine Torca® Stainless Steel Accuseal Exhaust Clamps, which provide for superior clamping and sealing of overlap joints without permanently distorting the exhaust tubing.

Part No.	Description
1163	S.S. Seal Clamp for 2" O.D. Tubing (1" wide band)
1164	S.S. Seal Clamp for 2 1/4" O.D. Tubing (1" wide band)
1166	S.S. Seal Clamp for 2 1/2" O.D. Tubing (1" wide band)
1169	S.S. Seal Clamp for 2 3/4" O.D. Tubing (1" wide band)
1167	S.S. Seal Clamp for 3" O.D. Tubing (1" wide band)
1162	S.S. Seal Clamp for 3 1/2" O.D. Tubing (1" wide band)
1168	S.S. Seal Clamp for 4" O.D. Tubing (1 1/4" wide band)

EXHAUST SENSOR FITTINGS

E-VAC SCAVENGER

Vibrant Performance E-Vac Scavenger Kits are designed to pull as much as 3 inch lbs. of vacuum from a typical race engine, improving horsepower and reducing crankcase pressure.

Each kit includes an E-Vac Fitting (available in either T304 Stainless Steel or Mild Steel) that includes an integrated Male -10AN, as well as an angled O2 Bung and a matching Threaded Plug.

Part No.	Description
1189	Stainless Steel E-Vac Scavenger Kit
11189	Mild Steel E-Vac Scavenger Kit

Crankcase gases

11191	-10AN
11192	-12AN

OXYGEN SENSOR RESTRICTOR FITTING WITH ADJUSTABLE GAS FLOW INSERTS

- This Fitting has proven to be effective in helping clear stubborn CEL and is simple to install.
- Male end of the Fitting threads into a standard M18 x 1.5 O2 Bung.
- A standard O2 Sensor threads into the female end of this fitting.
- Insert one of the three included inserts to restrict exhaust gas flow to the O2 Sensor and retain in place with included clip.
- Full T304 Stainless Steel Construction.

Part No. 11621

J-STYLE OXYGEN SENSOR RESTRICTOR FITTING WITH ADJUSTABLE GAS FLOW INSERTS

- This J-Style Restrictor Fitting works just like our original design but allows for easier installation when clearance under the vehicle is an issue.
- Includes jam nut to allow for 360° indexing.
- Full T304 Stainless Steel Construction.

Part No. 11619

**OXYGEN SENSOR FITTINGS
T304 STAINLESS STEEL
AND MILD STEEL

OXYGEN SENSOR SOCKET TOOL

This cut-away Socket Tool is designed to clear the O2 Sensor Wire and simplify removal or installation of O2 Sensors. This sturdy tool is manufactured to withstand the installation torque requirements.

Features a 3/8" drive receiver.

Part No. 11148

CUSTOM EXHAUST ACCESSORIES

STAINLESS STEEL HANGER RODS (O.E. STYLE)

Part No.	Description
1198	Box of 10, 400 Series Stainless Steel Hangers (3/8" dia. x 9" long)
1199	Box of 10, 400 Series Stainless Steel Hangers (1/2" dia. x 9" long)
11898	Box of 10, 300 Series Stainless Steel Hangers (3/8" dia. x 9" long)
11899	Box of 10, 300 Series Stainless Steel Hangers (1/2" dia. x 9" long)

EXHAUST HANGER ROD CLIPS

A simple solution for a common problem.

Universal Hanger Rods often do not match the width of the Rubber Exhaust Hanger, allowing the exhaust to slide freely.

Vibrant's new Hanger Rod Clips, made from Delrin, help solve this problem by filling the gap.

Part No.	Description
1198C	Pack of 2, Hanger Rod Clips for 3/8" O.D. rod
1199C	Pack of 2, Hanger Rod Clips for 1/2" O.D. rod

INNER SILENCER

Part No.	Description
1184	3.90" O.D. Low Restriction Inner Silencer for all TPV Universal Mufflers (2 1/2" dia. tuning tube)

STAINLESS STEEL FASTENERS

Part No.	Description
1450A	Package of 2 Fastener Sets (2 x M10 bolts, 2 x M10 nuts, & 4 washers)
1450B	Bulk Package of 25 Fastener Sets (25 x M10 bolts, 25 x M10 nuts, & 100 washers)

SPRING BOLT KITS

10mm GM Style Spring Bolt Kit

Part No.	Application
10112	2 bolt, 10mm GM style Spring Bolt Kit (2 bolts, 2 nuts & 2 springs)
10113	3 bolt, 10mm GM style Spring Bolt Kit (3 bolts, 3 nuts & 3 springs)

Part No.	Description
2599S	2 bolt, M10 x 1.5 Honda style Spring Bolt Kit (2 bolts, 2 nuts & 2 springs)

Vibrant Performance Stainless Steel Universal Performance Mufflers are made from T304 Stainless Steel. Our "True Straight Through" internals feature a Stainless Steel Perforated Tube that is wrapped in our premium quality, multi-layer sound suppression material that will produce a low, deep tone while allowing for unrestricted flow and maximum horsepower. These Mufflers are not flow directional, allowing the installer the flexibility needed for custom exhaust fabrication.

FLAT BLACK UNIVERSAL MUFFLERS

Vibrant Performance Flat Black Universal Mufflers feature 100% Stainless Steel construction and our "True Straight Through" internals for unrestricted exhaust gas flow. The perforated core is surrounded by our premium quality sound suppression material that helps produce a low, deep tone. These stealthy mufflers are very popular, especially for avoiding unwanted attention.

TPV UNIVERSAL MUFFLERS

Vibrant Performance TPV Universal Mufflers are designed to withstand the extreme demands of high performance vehicles. They feature T304 Stainless Steel construction, are fully TIG welded for optimum durability and come with "True Straight Through" internals for unrestricted exhaust flow and maximum power gains. We densely pack all TPV mufflers with our premium multi-layer sound suppression materials to ensure a low, deep exhaust note. Suitable for both Naturally Aspirated and Forced Induction applications.

StreetPower Universal Performance Mufflers offer a perfect balance of subtle styling and all out power. These mufflers are constructed from T304 Stainless Steel for optimum durability and corrosion resistance. Each oval bodied muffler shell is densely packed with our premium multi-layer sound suppression material that produces a very distinctive deep exhaust note. Suitable for both Naturally Aspirated and Forced Induction applications.

STAINLESS STEEL RESONATORS

ULTRA QUIET DESIGN

Vibrant Performance Ultra Quiet Resonators are constructed from T304 Stainless Steel and features a "True Straight Through" perforated core that is surrounded by our premium multi-layer sound suppression materials. Ultra Quiet Resonators feature a larger sound chamber than our standard resonators to further reduce exhaust tone.

STAINLESS STEEL RACE MUFFLERS

Vibrant Performance Race Mufflers are designed to comply with muffler requirement rules at race tracks throughout North America. Constructed from T304 Stainless Steel and fully tig welded, these mufflers are very lightweight, compact and offer excellent durability and corrosion resistance. These Race Mufflers feature a "True Straight Through" perforated core that is designed to reduce noise levels without performance loss.

"True Straight Through"

LIGHTWEIGHT ALUMINUM MUFFLERS

Aluminum is quickly becoming the material of choice for Street Class racers and other performance enthusiasts who are looking to shave significant weight from their vehicle's exhaust system at a reasonable cost compared to other lightweight material options.

For those consumers, Vibrant offers our line of T6061 Aluminum Mufflers, with inlet/outlet sizes ranging from 2 1/2" to 4". These lightweight mufflers feature tig welded seams and our premium sound suppression packing materials wrapped around the large diameter "True Straight Through" internal perforated core.

STAINLESS STEEL HEADERS & CAT-BACK SYSTEMS

- Up to 20HP improvement vs. Stock
- Features a 2-1/2" outlet

- Perfect for All-Motor race engines and supercharged applications
- Features 45mm O.D. equal length primaries that merge into a 4-1 Collector and exit through a 2-1/2" outlet

Part No.	Application
2508	2006-2010 Honda Civic Si Coupe / Sedan

Part No.	Application
2509	J-SPEC 4-into-1 Race Header for Honda B-Series (B16 / B18 / B20)

- Lightweight
- Produces superior low and mid-range power without sacrificing top end
- 45mm O.D. primaries merge into 2" Y-pipe and exits into a 2 1/2" outlet
- Outstanding Ground Clearance

- Lightweight Two Piece Design
- Produces excellent power across RPM band
- 45mm O.D. primaries merge into 2" Y-pipe and exits through 2 1/2" outlet
- Outstanding Ground Clearance

Part No.	Application
2539	J-SPEC 4-2-1 Race Header for Honda B-Series (B16 / B18 / B20)

Part No.	Application
2540	4-2-1 Race Header for Honda H22 Motors Bolts up to H22 equipped Honda Preludes and other vehicles with H22 swaps

J-SPEC HEADER INSTALLATION KIT

The J-Spec Header Installation Kit simplified installing a Honda Header with a 2-1/2" diameter 2-bolt outlet.

This kit consists of a 2-bolt connecting flange (with a flared outlet neck) and a 2-1/2" I.D. Donut Style Graphite Gasket.

This flange kit will work with the OE Spring Bolts.

- Part #2599 – J-Spec Header Installation Kit (Flange and Gasket)**
- Part #2599B – Graphite Donut Gasket (2 1/2" I.D.), sold separately**

SPRING BOLT SET FOR J-SPEC HEADER INSTALLATION KIT

Part #2599S – 2-bolt Spring Bolt Kit for J-Spec Header installation kit.

In the event of a Check Engine Light, consider using one of Vibrant's unique O2 sensor bungs (such as part #11620 and #11621), which may help eliminate this problem. Results may vary. Please refer to pages 76 for more information about these products.

- Features 45mm O.D. primaries that exit through a 2 1/2" outlet
- Bolts to stock exhaust with no modifications

- Enjoy up to 10 HP improvement
- Comes with O2 Sensor Relocation Kit to avoid CEL

Part No.	Application
12577	4-2-1 Race Header for 2002-2004 Acura RSX Type S

Part No.	Application
2541	4-2-1 Header for 2004-2008 Mazda 3 (2.0L)
2542	4-2-1 Header for 2004-2008 Mazda 3 (2.3L)

Part No.	Application	Tubing O.D.	Tip Size/Style
1622	2007-2010 Civic Si Sedan, 2.0L (Cat-Back Exhaust System)	63mm (2 1/2")	4" Round, angle cut
1626	2006-2010 Civic Si Coupe, 2.0L (Cat-Back Exhaust System)	63mm (2 1/2")	4" Round, angle cut

- Available with and without Catalytic Converter
- Features a large 2-1/2" diameter outlet
- Bolts up to stock exhaust without modification
- Combine with our STREETPOWER 3" Cat-Back Exhaust System to produce horsepower gains you can feel

- Full 3" Cat-Back System
- Bolts up to OE Manifold and our Headers 2536 and 2543

Part No.	Application
2536	4-2-1 Header for 2005-2008 Chevrolet Cobalt SS/SC (includes Metal Catalytic Converter in Downpipe)
2543	4-2-1 Header for 2005-2008 Chevrolet Cobalt SS/SC (Cat Delete Version)

Part No.	Application
1627	2005-2008 Cobalt SS Supercharged, 2.0L

TECH TIP

If installing header Part #2536, please ensure your vehicle's Air / Fuel ratio is no richer than 11.5:1. An overly rich Air / Fuel mixture can result in the premature failure of the Metallic Core Converter.

ADJUSTABLE TIMING BELT TENSIONER

In the past, professional race teams have developed custom tensioner solutions to deal with excessive timing belt slack on B and H series Honda race motors. At high RPM, Honda timing belts will flap excessively, to the point where skipping one or more teeth on a cam gear is a definite possibility. This slight shift in cam gear positioning can cause just a simple loss in horsepower but the potential exists for major engine damage if it results in engine valves crashing into the pistons.

Protect your high revving Honda B or H series motor by installing a Vibrant Performance Timing Belt Tensioner. Vibrant Tensioners are CNC machined from T6061 Billet Aluminum, making them lightweight yet very durable. The pulleys feature a special coating to prevent premature wear and tear due to friction from the belt. Completely adjustable (both vertically and horizontally) and easy to install because they bolt up directly to the stock Honda block (requires the removal or relocation of the factory power steering pump).

Part No.	Application
12690	Fits Honda B-Series Block (Anodized Silver)
12690K	Fits Honda B-Series Block (Anodized Black)
12691K	Fits Honda H-Series Block (Anodized Black)

PART # 12690K

Elbows, Cast Aluminum ...10
Elbows, Schedule 10, Stainless Steel ...28
Elbows, Silicone, 90 deg, Non-Reinforced ...18
Elbows, Silicone, 45 deg. and 90 deg, Reinforced ...17
Elbows, Stainless Steel, Mandrel Bent ...61-65
Electric Pumps for Windshield Washer Bottles ...59
Engine Mount Heat Shield, Universal ...57
E-Vac Scavenger Fittings ...76
Exhaust Clamps by Torca® ...75
Exhaust Flanges, 2-Bolt & 3-Bolt, Round, Stainless Steel ...74
Exhaust Flanges, 4-bolt, Oval, Stainless Steel ...61
Exhaust Flanges, Manifold, Stainless Steel & Mild Steel ...60
Exhaust Gaskets, 2-Bolt & 3 Bolt, Graphite ...74
Exhaust Gaskets, Donut Style ...75
Exhaust Hanger Rod Clips ...78
Exhaust Headers, Stainless Steel ...86-87
Exhaust Manifolds ...86-87
Exhaust Systems, Cat-Back ...87
Exhaust Tips, Stainless Steel, Weld-On & Bolt-On ...84-85
External Wastegate Flanges ...32-33
ExtremeShield Flexible Tubing, Hose Protection ...58

F

Fasteners, Stainless Steel ...78

Fittings, Adapter, Aluminum ...45-51

Fittings, Check Valve ...49, 76

Fittings, EGT Sensor ...77

Fittings, E-Vac Scavenger ...76

Fittings, Hose Barb Adapters ...49

Fittings, Hose End, Swivel, Aluminum ...42-43

Fittings, Oil Restrictor ...38

Fittings, Oxygen Sensor ...76-77

Fittings, Pneumatic One-Touch Vacuum ...25

Fitting, Push-On Hose End, Aluminum ...44

Fittings, Vacuum, Aluminum ...24-25

Filters, Air, High Performance ...22-23

Filters, Catch Can ...55

Filters, Crankcase Breather ...23

Flanges, Blow Off Valve ...27

Flanges, Compressor Inlet and Outlet ...37

Flanges, Exhaust, 2 Bolt & 3 Bolt, Stainless Steel ...74

Flanges, Exhaust Manifold, Stainless Steel & Mild Steel ...60

Flanges, External Wastegate ...32-33

Flanges, Oil Drain, Aluminum ...39

Flanges, Oil Feed, Aluminum ...38

Flanges, Turbo Discharge ...34-37

Flanges, Turbo Inlet ...30-31

Flanges, V-Band, Aluminum and Stainless Steel ...72-73

Flat Black Universal Mufflers, Stainless Steel ...80

Flexible Couplings, Stainless Steel ...68-69

Flexible Hose Sleeving, Heat Protect ...58

Flexible Interlock Hose, Stainless Steel ...33

Flexible Race Hoses, Braided, Stainless Steel & Nylon ...40-41

Flexible Race Hoses, Rubber Push-On Style ...44

Flexible Split Sleeving, Hose Protection ...58

Flexible Tubing, ExtremeShield 1200 & ExtremeShield 1400...58

FKM Rubber O-Rings for Aluminum Adapter Fittings ...53

FKM Rubber O-Rings for Aluminum V-Band Flanges ...73

Fuel Cell Bulkhead Adapter Fittings, Aluminum ...51

Fuel Injector Style Mini Hose Clamps ...52

FUSE Wire ...6-7

G

GESI High Performance Catalytic Converters ...71

Graphite Gaskets, 2 Bolt and 3 Bolt style ...74

Graphite Gaskets, Donut Style ...75

H

Hanger Rod Clips, Exhaust ...78

Hanger Rods, Stainless Steel ...78

Hard Lines, Aluminum and Stainless Steel ...50

Hard Line Tube Adapter Fittings ...50

Headers, Exhaust, Stainless Steel ...86-87

Heat Protect Flexible Sleeving ...58

Heat and Acoustic Shields by DCI ...56-57

Heater Hoses, Silicone ...20

Hex Bolts, Threaded Plug for O2 Sensors, Mild Steel ...77

High Performance Catalytic Converters by GESI ...71

High Temperature Vacuum Line Kits ...25

Honda, Headers and Cat-Back Systems ...86-87

Hoses, Flexible Braided Race, Stainless Steel & Nylon ...40-41

Hoses, Flexible Rubber, Push-On Style ...44

Hose, Interlock, Stainless Steel ...33

WARRANTY POLICY

All Vibrant Performance products are covered by a LIMITED warranty covering only defects in materials and workmanship (coverage periods vary according to product category). The products supplied by Vibrant Performance must be installed in a manner that protects such product from external or internal physical damage and must be installed in accordance with catalog recommendations. Vibrant Performance cannot be held liable for product failure caused by improper installation and / or improper handling.

The sole obligation of Vibrant Performance will be to repair or replace the defective product after inspection by a Vibrant Performance Representative. The Vibrant Performance warranty makes absolutely NO ALLOWANCE for labor claims. We will not be responsible for any costs incurred to remove the defective product or to re-install the replacement product, nor does this limited warranty cover the costs to repair any damage sustained to the motor, vehicle, or any parts on the vehicle which may have been caused by the defective product. The warranty limits liability to the replacement or repair of the defective product only.

No warranty claim shall be valid without a written request for a "Returned Goods Authorization" (RGA) number. Any product returned to Vibrant for warranty reasons without an RGA # will be refused and returned to sender.
